Passages. Architecture for Flowing and Connecting Spaces Nicolò Chierichetti, Raffaella Cavallaro, 2025-09-01 Ceci n est pas une conf rence sur la mobilit As infrastructures of movement often prioritize technical efficiency they risk neglecting the qualitative and experiential dimensions of space an oversight that architectural thinking is distinctively positioned to address Architecture offers a special perspective to address this gap particularly in light of SDG 09 Industry Innovation and Infrastructures and SDG 11 Sustainable Cities and Communities and in reference to the principles of the EAAE Charter By engaging with mobility through a transversal approach the conference explores how architectural design can contribute to reimagining spaces to overcome functionalist engineering limitations also considering the ecological climate and social impacts of mobility spaces as something more than mere built objects Through the examination of design methodologies and prototype case studies the conference attempts to unveil the potential of architectural design and research tools to enrich unconventional discussions about mobility in urban and peri urban contexts its spatial configurations and experiential qualities Although mobility is intended as a framework the discourse will focus on the spaces above below in between and to the sides of the ordinary boundaries of architectures of flow as well as on the spaces of new forms of movement The conference Passages Architecture for Flowing and Connecting Spaces invited contributions which critically address the role of Architecture in the Shaping the spaces of mobility and in their interference around the sessions of Intersection Collateral and Evolution

A Critical History of Contemporary Architecture Asst Prof David Rifkind, Dr Elie G Haddad, 2014-03-28 This book provides a comprehensive critical overview of the developments in architecture from 1960 to 2010 The first section provides a presentation of major movements in architecture after 1960 and the second a geographic survey that covers a wide range of territories around the world This book not only reflects the different perspectives of its various authors but also charts a middle course between the aesthetic histories that examine architecture solely in terms of its formal aspects and the more ideological histories that subject it to a critique that often skirts the discussion of its formal aspects *The British National Bibliography* Arthur James Wells, 2001 **Seeing Japan** Charles T. Whipple, 2005 The scenes and images that best typify Japan are showcased in this lavish production full colour photographs throughout with a succinct and illuminating text Part 1 presents the tremendous range of landscapes and customs in the various distinctive regions of this surprisingly large and diverse nation while Part 2 concentrates on the arts and traditions of culture that has been nurtured over centuries Part 3 offers essential background on the country's history language and people *Books in Print Supplement* ,2002 *The New Japanese Architecture* Botond Bognár, 1990 Om japansk arkitektur hovedsagelig fra 1980'erne og 1990'erne **Casabella** ,2001

los proyectos realizados por Sejima Sanaa El proceso de decodificación ha operado con dos premisas solo se entienden las cosas cuando se entiende como han podido ser originadas pensadas construidas y no cabe el perseguir descubrir los procesos reales sino proponer y describir procesos verosímiles cuyo interés está en su alcance pedagógico no en la identificación de ninguna verdad biográfica o histórica Este libro ofrece además otras lecturas y análisis sobre aspectos inevitablemente relacionados con lo anterior referidos sobre todo a la naturaleza del espacio arquitectónico y al emplazamiento de la arquitectura en el lugar Espera servir para entender mejor las lógicas inherentes a las propuestas proyectuales de Sejima Sanaa y para encontrar algunas claves sobre un proyectar contemporáneo que estando arraigado en la modernidad arquitectónica del S XX también la trasciende
