Buki, Lissette M Piedra, 2011-09-08 Latinos are the fastest growing and largest minority group in the United States In 2008 this group numbered over 47 million by 2050 the population is expected to triple reaching 133 million Traditionally Latinos have immigrated to large urban centers e g New York Los Angeles that over long periods of time developed a complex infrastructure to receive new immigrants Increasingly new Spanish speaking immigrants are moving into areas of the

country previously unfamiliar to them Although urban co ethnic communities continue to be the destination of many newcomers immigrants from Mexico Central America and South America in pursuit of low skilled labor opportunities are settling in small towns and rural areas of the South and Midwest This new demographic trend has resulted in the creation of the term new growth communities which refers to small rural areas that are now home to a small but rapidly growing Hispanic population Unfortunately these communities which are now present in many states across the country e g Illinois North Carolina lack the infrastructure necessary to meet the needs of Latino immigrants e g access to health care immigration assistance and breaking down language barriers The lack of an infrastructure and the lack of an established ethnic community to facilitate the assimilation of new immigrants present an ongoing challenge especially in the area of Latino mental health The volume focuses on dealing with systemic issues and on providing innovative ideas for development of infrastructure of services This text will advance ways to understand and ameliorate mental health disparities both from research and experiential perspectives

examining the impact of Hispanic immigration on American politics with a blueprint for what conservatives must do to recapture the American electorate Since 1965 millions of people have come to this country from Latin America and the Caribbean seeking freedom and the chance to make a better life Now accounting for more than 16 percent of the population His panics have emerged as a decisive voting bloc that overwhelmingly skews liberal as they influence pivotal electoral races But it doesn't have to be that way forever In *A Race for the Future* Mike Gonzalez describes what the term Hispanic means correcting the erroneous assumption that it is a homogenous group and presenting an unvarnished look at the challenges each nationality Mexican Puerto Rican Dominican and many others faces in America Despite their growing political power Hispanics have largely been kept separate from mainstream America and many of them are consigned to an underclass status *A Race for the Future* reveals exactly how bureaucratic decisions that encourage public assistance and discourage assimilation hinder Hispanics and allow them to be politically monopolized by progressives Gonzalez shows how conservatives can begin to reverse this damaging trajectory by supporting policies that would help Hispanics thrive education choice family values and financial freedom By returning to their core values of community industry and independence conservatives can actively court the vital Hispanic vote The fate of too many key battleground states from Texas to Florida analyzed in depth here depends on the Right's ability to successfully do just that A powerful take on a rapidly changing and diverse community *A Race for the Future* is a much needed course correction on how our country can successfully enable Hispanics to flourish while standing firm on our principles
