Keighren, Charles W. J. Withers, Bill Bell, 2015-05-11 The Age of Exploration and Discovery may well have started in the 15th century but for the British the 19th century saw the rise of the British Empire and an explosion in world travel The travel narratives written during this century were profuse and by some estimates more travel narratives were written during the first half of the 19th century than in all preceding centuries These accounts tell of wondrous zoological and botanical finds of topography never before imagined and of exotic peoples as well At the time there was one publisher John Murray known for its utter domination of the travel narrative field The caliber and profile of their list was known throughout the UK and Europe and into the US as well The authors of the house included Jane Austen Lord Byron Washington Irving and Sir Walter Scott And in its list of travel writing and exploration the house boasted the authors Charles Darwin and Charles Lyell Murray's name became as synonymous with travel writing and exploration as it was with literary

giants Travels into Print is a tour through the archives and files of the House of Murray and marvelous expedition in the geography of travel and exploration writing knowledge and reception in the 19th century Rather than focusing on narratives of a particular region or scientific area of interest or particular period the work uses a source that cuts across all of these areas the publisher Steeped in book files and correspondence about edits and revisions sent between Murray and his staff and explorers the book addresses the ways in which the texts were written the role of truth in the accounts correspondence as a form of production and the writings as travel documents This is a wonderful history of the book told from the perspective of a legendary book and author maker

In Pursuit of Ancient Pasts Stephen L. Dyson,2008-10-01 divThe stories behind the acquisition of ancient antiquities are often as important as those that tell of their creation This fascinating book provides a comprehensive account of the history and development of classical archaeology explaining how and why artifacts have moved from foreign soil to collections around the world As archaeologist Stephen Dyson shows Greek and Roman archaeological study was closely intertwined with ideas about class and social structure the rise of nationalism and later political ideologies such as fascism and the physical and cultural development of most of the important art museums in Europe and the United States whose prestige depended on their creation of collections of classical art Accompanied by a discussion of the history of each of the major national traditions and their significant figures this lively book shows how classical archaeology has influenced attitudes about areas as wide ranging as tourism nationalism the role of the museum and historicism in nineteenth and twentieth century art DIV

Beacon Lights of History (All 14 Volumes) John Lord, 2023-12-20 In *Beacon Lights of History* John Lord presents a sweeping narrative that captures the essence of human experience through historical biographical sketches spanning fourteen volumes. The work intricately weaves together substantial historical events and influential figures ranging from Socrates to modern times, all conveyed in Lord's eloquent prose that reflects both narrative vigor and scholarly rigor. His methodical approach contextualizes key epochs and illustrates how these luminaries shaped societal paradigms utilizing a vibrant literary style that encourages both reflection and engagement with the past. The richness of Lord's historical analysis invites readers to contemplate the moral and ethical dimensions of leadership across civilizations. John Lord, an American historian and essayist, was profoundly influenced by the intellectual currents of the 19th century, particularly the Romantic idea of individualism's impact on history. His extensive background in philosophy and literature profoundly shaped his perspective, cultivating a desire to illuminate the legacies of eminent historical figures. Lord's passion for education is evident in his thoughtful examination of human character and its interplay with societal change, providing critical insights into the motivations behind historical events. *Beacon Lights of History* is essential for any reader interested in understanding the foundations of modern civilization through the lens of its greatest thinkers and leaders. It serves not merely as a chronicle but as a guide to moral clarity and intellectual ambition, making it an invaluable addition to both academic libraries and personal collections.
