JCB Lighting Tower LT9

The LT9 is a compact, dedicated road towable lighting tower. Featuring a 9m hydraulically activated mast which can rotate 360deg to ensure optimum light positioning, which supports 4 metal halide spotlights of 1000 watts and 90,000 lumens per spotlight.

The mast incorporates a safety feature that the mast cannot be raised unless the handbrake is on and if the handbrake is released the mast will automatically lower to the travel position. It has four stabilisers to ensure stability on all terrains.

Control is with the KS2 control panel and the LT9 comes complete with outlet and inlet sockets giving the ability to power additional external equipment, or to power from other external sources of power as required. All making the LT9 perfect for rental fleets and individual users alike.
