## **Kerala The Development Experience Reflections On Sustainability And Replicability:**

**Kerala: the Development Experience** Govinda Parayil, 2000-08-12 At a time when disillusion with neo liberal development nostrums is mounting alternative models of development are being revisited Kerala's 30 million people may not have experienced rapid growth in GDP per capita but they have for the past several decades achieved a remarkable social record in terms of adult literacy infant mortality life expectancy stabilising population growth and narrowing gender and spatial gaps What are the implications of the disjuncture between human development and economic growth What are the political social and cultural factors responsible for Kerala's success Does its human development record necessarily relate to sustainability in environmental terms How inclusive has the Kerala model been particularly for the fishing community and other socially marginalised groups Can the new people's campaign for decentralised development from below make Kerala's development experience more enduring What realistic view can be taken of its replicability elsewhere in India or further afield in the South These are among the most important questions explored in this timely reassessment **Culture and the Changing Environment** Michael J. Casimir, 2009 Today human ecology has split into many different sub disciplines such as historical ecology political ecology or the New Ecological Anthropology The latter in particular has criticised the predominance of the Western view on different ecosystems arguing that culture specific world views and human environment interactions have been largely neglected However these different perspectives only tackle specific facets of a local and global hyper complex reality In bringing together a variety of views and theoretical approaches these especially commissioned essays prove that an interdisciplinary collaboration and understanding of the extreme complexity of the human environment interface is possible *Making of Distinctions* Antony Palackal, Nandita Chaudhary, Giuseppina Marsico, 2021-01-01 The volume revolves around the theme inclusive oppositions in social sciences that address the issue of making of distinctions and create artificial dichotomies and dualistic view of society It is set against the currents of systematic reduction of anthropodiversity and psychodiversity which appears as a pathology of the current neo liberalist and colonialist model of development The volume is an attempt to overcome the colonial tendencies and forces to standardize and homogenize various categories and institutions in society by establishing structural relationality and intersectionality between the parts of the whole ecosystem where in the human and non human intersect and interact The volume brings together a unique collaboration in the field of Cultural Psychology and offers the intellectual tools to grasp how a syncretic understanding of Identity and Culture unfolds particularly in the key domain of gender The chapters and commentaries uncover cultural dynamics and identity formation from a specific location the region of Kerala in south western India The chapters and commentaries in this volume illustrates that Kerala is a cultural micro cosmos in which gender identity religion ethnicity caste global market and tradition intersect to create complex and multiple subjects that do not fit in binary categorizations The compiled volume will be of great value to scholars researchers and academicians in Social Sciences particularly Cultural

**Development and Gender Capital in India** Shoba Arun, 2017-09-06 The Indian state of Kerala has invoked much attention within development and gender debates specifically in relation to its female capital an outcome of interrelated historical cultural and social practices On the one hand Kerala has been romanticised with its citizenry particularly women being free of social divisions and uplifted through educational well being On the other hand its realism is stark particularly in the light of recent social changes Using a Bourdieusian frame of analysis Development and Gender Capital in India explores the forces of globalisation and how they are embedded within power structures Through narratives of women s lived experiences in the private and public domains it highlights the anomie of gender through complexities and contradictions vis vis processes of modernity development and globalisation By demonstrating the limits placed upon gender capital by structures of patriarchy and domination it argues that discussions about the empowered Malayalee women should move from a mere politics of rhetoric and representation to a more embedded politics of transformation meaningfully taking into account women s changing roles and identities This book will be of interest to scholars and students of Development Studies Gender Studies Anthropology and Sociology

*Development, Democracy and the State* K. Ravi Raman, 2010-04-14 The Indian state of Kerala is known for its high social model of development and social democratic governance This book presents the most comprehensive analysis of the Kerala Model of Social Development to date The model has often been identified as one worth emulating because it is seen to have taken the state to the zenith of human development and democratic governance Using an interdisciplinary approach the book sheds new light on the paradoxes of the Indian state and its model of economic development The book provides a consolidated exploration and critique of the Kerala model which usually has been portrayed as linear with the grand narrative of progress development and democracy Chapters discuss the past and present dimensions of the Kerala experience from a historical and political economic perspective thus providing a fresh understanding of the emerging concerns in the state and the construction of an ethically viable development agenda eschewing the scourge of social inequity A significant contribution to the literature on development democracy and the state it analyses the complex interconnectedness of the various political economic and socio cultural domains involved in these experiences

**Rethinking Democracy** Leo Panitch, Greg Albo, 2017-12-22 For years intellectuals have argued that with the triumph of capitalist liberal democracy the Western World has reached the end of history Recently however there has been a rise of authoritarian politics in many countries Concepts of post democracy anti

politics and the like are gaining currency in theoretical and political debate Now that capitalist democracies are facing seismic and systemic challenges it becomes increasingly important to investigate not only the inherent antagonism between liberalism and the democratic process but also socialism Is socialism an enemy of democracy Could socialism develop expand even enhance democracy While this volume seeks a reappraisal of existing liberal democracy today its main goal is to help lay the foundation for new visions and practices in developing a real socialist democracy Amid the contradictions of neoliberal capitalism today the responsibility to sort out the relationship between socialism and democracy has never been greater No revival of socialist politics in the twenty first century can occur without founding new democratic institutions and practices

In Pursuit of the Good Life Jocelyn Lim Chua, 2014-03-08 Once celebrated as a model development for its progressive social indicators the southern Indian state of Kerala has earned the new distinction as the nation's suicide capital with suicide rates soaring to triple the national average since 1990 Rather than an aberration on the path to development and modernity Keralites understand this crisis to be the bitter fruit borne of these historical struggles and the aspirational dilemmas they have produced in everyday life Suicide therefore offers a powerful lens onto the experiential and affective dimensions of development and global change in the postcolonial world In the long shadow of fear and uncertainty that suicide casts in Kerala living acquires new meaning and contours In this powerful ethnography Jocelyn Chua draws on years of fieldwork to broaden the field of vision beyond suicide as the termination of life considering how suicide generates new ways of living in these anxious times

*Tiny Engines of Abundance* Jim Handy, 2022-04-15T00:00:00Z This book provides a historical and comparative perspective of peasant productivity using case studies portraying the extraordinary efficiency with which English cottagers Jamaican ex slaves Guatemalan Mayan campesinos Nigerian hill farmers and Kerala hut dwellers obtained bountiful and diversified harvests from small parcels of land provisioning for their families and often local markets These stories provide us with pictures of carefully limited needs of sustainable livelihoods and of resilient self reliance attacked relentlessly and mercilessly in the name of capital progress development modernity and or the state For two hundred years we have been told that the hundreds of thousands or millions or billions of hungry mouths require that peasants be dispossessed to allow more industrious farmers to feed them This book helps make it clear how wrong we have been Handy's approach is original and the book will engage people interested in the history of the peasantry rural development and the quest for food sovereignty

*Assessing Dynamics of Democratisation* O. Törnquist, 2013-10-30 The book summarises the critique of these approaches suggests a comprehensive alternative framework and shows how the alternative works in reality through a case study of the largest of the new democracies Indonesia

Democratic Accountability and International Human Development Kamran Ali Afzal, Mark Considine, 2014-11-27 Scholars and policymakers have long known that there is a strong link between human development and spending on key areas such as education and health However many states still neglect these considerations in favour of competing priorities such as expanding their armies This book examines how states arrive at these decisions analysing how democratic accountability influences public spending and impacts on human development The book shows how the broader paradigm of democratic

accountability extending beyond political democracy to also include bureaucratic and judicial institutions as well as taxation and other modes of resource mobilisation can best explain how states allocate public resources for human development. Combining cross country regression analysis with exemplary case studies from Pakistan, India, Botswana and Argentina, the book demonstrates that enhancing human capabilities requires not only effective party competition and fair elections but also a particular nesting of public organisational structures that are tied to taxpaying citizens in an undisturbed chain of accountability. It draws out vital lessons for institutional design and our approach to the question of human development particularly in the less developed states. This book will be of great interest to postgraduate students and researchers in the fields of political economy, public policy, governance and development. It also provides valuable insights for those working in the international relations field including inside major aid and investment organisations.

**Women Entrepreneurs and the Myth of 'Underperformance'** Shumaila Yousafzai, Alain Fayolle, Adam Lindgreen, Colette Henry, Saadat Saeed, Shandana Sheikh, 2018-02-23. A must read for all entrepreneurship scholars because it helps us to understand and appreciate the real and many roles of women entrepreneurs, their relevance and importance to societies across the World as well as the challenges and issues women entrepreneurs can face. An exciting and interesting read which presents us with critical questions for the future. Thank you Sarah Jack Lancaster University Management School UK. Taking a fresh look at how performance is defined by examining the institutional power structures and policies, eminent scholars herein explore ways to overcome constrained performance and encourage women's entrepreneurial activities through a variety of methodological approaches and geographical contexts. Significantly, this book adds a critical perspective to defining success and performance, shattering misconceptions of underperformance in women-owned enterprises. The contributing authors raise questions on the limiting concept of the entrepreneur and have valuable insights into policies to facilitate female entrepreneurs. Instead of taking a one-sided and narrow approach with regards to understanding the entrepreneurship performance phenomenon, this book argues that future researchers should take a fresh look at business performance considering structural constraints, definitions of success and other socio-political factors. Scholars in the fields of entrepreneurship, gender studies and institutional theory as well as those who have a general interest in critical research will benefit from this progressive step in entrepreneurship research. *Rethinking Feminist History and Theory* Lisa Pasolli, Julia Smith, 2025-01-31. *Rethinking Feminist History and Theory* considers the past, present and future of feminist history and theory, emphasizing how feminism has influenced the histories of gender, class and labour and their intersections. This vibrant collection, inspired by the work of historian and women's studies scholar Joan Sangster, features essays from

academics across multiple disciplines highlighting the dynamism of feminist historical scholarship in Canada. The book explores questions such as the following: How has women's resistance and radicalism been expressed, lived, represented, and repressed over the past century? How do we research these phenomena? How do we situate feminism in relation to other movements for egalitarian social change? Contributors explicitly address these recurring themes, aiming to chart new directions for future research and teaching. While primarily Canadian-focused, the collection includes global perspectives with contributions from scholars in Chile, Finland, Sweden, and the UK. The essays emphasize the importance of cross-disciplinary collaboration, incorporating insights from labour studies, political economy, anthropology, legal studies, and feminist theory. Ultimately, *Rethinking Feminist History and Theory* engages deeply with Sangster's rich and wide-ranging work to understand and interpret women's experiences. It seeks to inspire future scholarship and teaching in feminist history and theory, showcasing the ongoing relevance and adaptability of feminist perspectives.
