It covers information about the main groups of dangerous fish species: i) biting and predator fish, ii) venomous stinging fish, iii) electric shock fish, iv) harmful stinging fish, and v) poisonous fish. In the latter group, the book gives details about fishes that cause several types of toxicities to humans. **Coastal Zone Management** Parimal Sharma, 2009. The coastal zone management is the need of the hour for every country. The wide range of resources and economic importance of the coastal zone have become very vital in today's time. This book has been written by keeping all these things in mind. This book starts with an introduction to the coast and coastal life, followed by chapters which highlight the extension of coasts, the concept of coastal zone management, promotion of tourism by the development of coastal areas, coastal system and its management structures, marine tourism and its impact on coastal life, the problem of marine pollution, etc. This book concludes with a chapter on coastal zone and related Indian projects. We have tried to keep many relevant topics in this book, and the language has been kept very simple and pragmatic throughout the book, and we hope that the present book will find its due place amongst the readers.
