	- This product is used to detect targets. Do not apply the product to safety circuits for human protection. - This product is not of explosion-proof construction. Do not use the products in places with flammable gas, liquid, or dust. - This product is a sensor of DC power supply type. Do not apply AC power. The product may explode or burn if an AC voltage is applied.
--	---

- Do not wire the amplifier line along with power lines or high-tension lines, otherwise the sensor may malfunction or receive damage due to noise.
- When using a commercially available switching regulator, ground the frame ground terminal and ground terminal.
- Do not use the FS series outdoors, or in a place where extraneous light can enter the light-receiving surface directly.
- Due to the individual dispersion of characteristics and the difference in fiber unit model, the maximum sensing distance or displayed value of all the units are not the same.
- If the sensor is used in S-APC mode for a long time, the LED indicators will be imposed with a heavy load. In this case, the sensor will be automatically set to MCC mode where the current consumption of the sensor for light emission will be constant, and "END-APC" will be displayed. The sensor can be continuously used in this case. Replace the sensor, however, if highly precise detection is required.
