It Happens In The Hallway Impacting School Climate Beyond The Classroom:

It Happens in the Hallway Mark Johnson, Sam Stecher, 2015-07-14 Mark Johnson and Sam Stecher have served as teachers, coaches, and administrators. They have provided instruction training and leadership at every level from elementary school to university institutions. Through MissionMonday.com as well as the opportunity to speak at conferences and schools, Mark and Sam have been able to connect with thousands of educators nationwide. This endeavor began years ago in a little coffee shop where two good friends would get together to talk about how being a teacher was going. Logically, it grew beyond the classroom to changing the world. And that conversation never really stopped. *It Happens In The Hallway* is an extension of those conversations. Consider this your invitation to join in with us.

Transforming School Climate and Learning Bill Preble, Rick Gordon, 2011-06-13 Creating safe schools from the inside out. This book details a comprehensive process for empowering students and teachers as school improvement leaders and experts. Bill Preble and Rick Gordon explain how schools can use the SafeMeasures collaborative action research process to collect and analyze school climate data, develop improvement goals, create exciting and inspiring action plans to dramatically improve their school's climate and student engagement. Each chapter features success stories from real schools, strategies and implementation activities, and book study questions that help all stakeholders transform both their school climate and student learning.

Teaching and Learning Climate and Environmental Justice in Law Schools Richard Grimes, Stephen Levett, Rebecca Samaras, Rebecca Williams, 2025-09-23 Arguing for the critical importance of the topic within law school curricula, whether for academic credit purposes or not, this novel and exceptionally timely book explores a fundamental question: should law schools teach about climate and environmental justice? Despite the urgency of climate and environmental protection issues, many law schools present the topic as optional for students or don't engage at all. Arguing for the inclusion of climate and environmental justice at the earliest possible opportunity, this book presents study models in a variety of contexts and jurisdictions to support research into curriculum development and design. Case study examples of planned climate and environmental justice research and offerings at national and international levels are presented to support those who wish to include and/or expand provisions. This book also addresses concerns and initiatives of indigenous peoples, demonstrating how partnerships between law schools and others remain integral to establishing sustainable learning initiatives. Ultimately, promoting and supporting the study of climate and environmental justice in a legal and applied context, this book will be of interest to scholars, researchers, and academics involved with sustainability education, training, and leadership, legal education, and curriculum design. Clinical legal educators may also find the volume of interest.

School Climate Change Peter DeWitt, Sean Slade, 2014-09-08 Students and educators today face obstacles to student achievement, well-being, and success that are above and beyond traditional instructional and assessment concerns. From low school morale to bullying to shootings, school climate has become a national and global concern. Research overwhelmingly indicates that a positive school climate promotes

cooperative learning group cohesion respect and mutual trust all of which have in turn been shown to improve the learning environment In short a positive school climate is directly related to improved academic achievement at all levels of schooling In this ASCD Arias book Peter DeWitt and Sean Slade explain the most important aspects of school climate and how we can make positive changes in our schools Readers will learn How to engage students and school stakeholders How to empower staff and students and foster autonomy so people take ownership of their ideas and the learning process How to promote inclusivity and equity throughout the school How to create a welcoming cooperative and safe school environment that nurtures students social emotional needs
