obsessed with images of German espionage but this seldom resulted in psychological disorder Each chapter therefore examines different emotional experiences alarm terror excitement anxiety hope anger and enjoyment to highlight the diverse and complex reactions towards the enemy within

Civilians in a World at War, 1914-1918 Tammy M. Proctor, 2010-08-30 World War I heralded a new global era of warfare consolidating and expanding changes that had been building throughout the previous century while also instituting new notions of war The 1914-18 conflict witnessed the first

aerial bombing of civilian populations the first widespread concentration camps for the internment of enemy alien civilians and an unprecedented use of civilian labor and resources for the war effort Humanitarian relief programs for civilians became a common feature of modern society while food became as significant as weaponry in the fight to win Tammy M Proctor argues that it was World War I the first modern global war that witnessed the invention of both the modern civilian and the home front where a totalizing war strategy pitted industrial nations and their citizenries against each other Civilians in a World at War 1914 1918 explores the different ways civilians work and function in a war situation and broadens our understanding of the civilian to encompass munitions workers nurses laundresses refugees aid workers and children who lived and worked in occupied zones on home and battle fronts and in the spaces in between Comprehensive and global in scope spanning the Eastern Western Italian East African and Mediterranean fronts Proctor examines in lucid and evocative detail the role of experts in the war the use of forced labor and the experiences of children in the combatant countries As in many wars civilians on both sides of WWI were affected and vast displacements of the populations shaped the contemporary world in countless ways redrawing boundaries and creating or reviving lines of ethnic conflict Exploring primary source materials and secondary studies of combatant and neutral nations while synthesizing French German Dutch and English language sources Proctor transcends the artificial boundaries of national histories and the exclusive focus on soldiers Instead she tells the fascinating and long buried story of the civilian in the Great War allowing voices from the period to speak for themselves

Joining up in the Second World War Joel Morley, 2025-07-29 This book connects the First and Second World Wars It uses oral histories and Mass Observation material to explore men's attitudes to Second World War enlistment and the relationship they perceived between military service and masculinity and how these were influenced by understandings of the First World War Locating the cultural legacy of First World War in the subjectivities of men who participated in the Second World War demonstrates the breadth of sources that informed men's understandings of the First World War in interwar Britain Its cultural legacy was omnipresent and diverse and informed young men's attitudes and service preferences but it reinforced Edwardian conceptions of wartime masculinity as often as it

undermined them Two decades after the First World War ended they remained resilient in the subjective understandings of men who grew up in the Great War's shadow

Dressed for War Nina Edwards, 2014-10-27 Men in khaki and grey squatting in the trenches women at work gender bending in goggles and overalls over their trousers a girl at the Paris theatre in pleated beaded silk a bangle on her forearm made from copper fuse wire from the Somme What people wear matters Copiously illustrated this book is the story of what people on both sides wore on the front line and on the home front through the seismic years of World War I Nina Edwards reveals fresh aspects of the war through the prism of the smallest details of personal dress of clothes hair and accessories both in uniform and civilian wear She explores how during a period of extraordinary upheaval and rapid change a particular preference for a type of razor blade or perfume say or the just so adjustment to the tilt of a hat offer insights into the individual experience of men women and children during the course of World War I

Men in reserve Juliette Pattinson, Arthur McIvor, Linsey Robb, 2017-02-01 Men in reserve focuses on working class civilian men who as a result of working in reserved occupations were exempt from enlistment in the armed forces It uses fifty six newly conducted oral history interviews as well as autobiographies visual sources and existing archived interviews to explore how this group articulated their wartime experiences and how they positioned themselves in relation to the hegemonic discourse of military masculinity It considers the range of masculine identities circulating amongst civilian male workers during the war and investigates the extent to which reserved workers draw upon these identities when recalling their wartime selves It argues that the Second World War was capable of challenging civilian masculinities positioning the civilian man below that of the soldier hero while simultaneously reinforcing them by bolstering the capacity to provide and to earn high wages frequently in risky and dangerous work all which were key markers of masculinity

Saunders,2022-08-31 *Curating the Great War* explores the inception and subsequent development of museums of the Great War and the animating spirit which lay behind them The book approaches museums of the Great War as political entities some more overtly than others but all unable to escape from the politics of the war its profound legacies and its enduring memory Their changing configurations and content are explored as reflections of the social and political context in which they exist *Curating of the Great War* has expanded beyond the walls of museum buildings seeking public engagement both direct and digital and taking in whole landscapes Recognizing this fact the book examines these museums as standing at the nexus of historiography museology anthropology archaeology sociology and politics as well as being a lieu de mmoire Their multi vocal nature makes them a compelling subject for research and above all the book highlights that it is in these museums that we see the most complete fusion of the material culture of conflict with its historical political and experiential context This book is an essential read for researchers of the reception of the Great War through material culture and museums
