Italian Medieval Sculpture in the Metropolitan Museum of Art and the Cloisters Metropolitan Museum of Art (New York, N.Y.), Lisbeth Castelnovo-Tedesco, Jack Soltanian, 2010 The collection of Italian medieval sculpture in The Metropolitan Museum of Art and The Cloisters began with the acquisition in 1908 of a Romanesque column statue today the Museum's holdings comprise more than seventy works dating from the ninth to the late fifteenth century The birthplaces of these works range from Sicily to Venice some typify local styles others illustrate the intense artistic exchanges taking place within Italy and between Italy and the wider world Technological advances of the last decades have made it possible to determine more precisely the materials and techniques from which works of art are made the history of their alteration and the mechanisms of their deterioration Using such techniques scholars have been able to ascertain for example that sculptures previously thought to be modern works carved in the medieval manner were in fact completely authentic This innovative volume represents a watershed in the study of sculpture a collaborative dialogue between an art historian and a conservator between art history and art science that deepens our understanding of the object we see while illuminating its elusive enigmatic history From publisher's description *Creating the Work You Love* Rick Jarow, 1995-11-01 In this unique and provocative look at work career counselor Rick Jarow argues for a return to the concept of vocation finding a calling instead of a job Traditional career guides inventory the individual skills talents and abilities that correlate to specific existing jobs *Creating the Work You Love* presents a unique alternative approach using self reflective exercises based on the seven chakras to help you determine the elements you need to create a life filled with meaning and purpose Jarow believes that it is possible to live and act from the most authentic part of ourselves and to express our strongest values energies and talents through our work in the world Concentrating on the attributes associated with each of the body's energy centers or chakras Dr Jarow helps us form a bridge between our personal priorities and the external activities of the work world Once this bridge is established strategies are developed to find a career that nourishes all aspects of our lives *Ancient Plaster* Abbey L. R. Ellis, Emma Payne, 2025-07-02 *Ancient Plaster Casting Light on a Forgotten Sculptural Material* offers a fresh exploration of plaster in the sculpture of the ancient Mediterranean and beyond Challenging the traditional focus on marble and bronze this volume

reveals the crucial role of plaster both in the sculptor's workshop and as a medium for finished sculpture. Combining academic insights with contemporary artists' perspectives, the book also delves into the controversial topic of life casting in antiquity and provides groundbreaking new interpretations of well-known plaster objects such as those from the Roman city of Baiae near Naples. With chapters extending the chronological and geographical scope to early modern Europe and contemporary art school contexts, the book illuminates plaster's versatility and the continuity of its use across millennia. By rehabilitating this material often overlooked or lost to the archaeological record, the volume offers a transformative view of ancient sculpture appealing to both scholars and art enthusiasts alike.

Diego Rivera Leah Dickerman, Diego Rivera, Anna Indych-López, Museum of Modern Art (New York, N.Y.), 2011. In 1931, Diego Rivera was the subject of The Museum of Modern Art's second monographic exhibition, which set attendance records in its five-week run. The Museum brought Rivera to New York six weeks before the opening and provided him a studio space in the building. There he produced five portable murals: large blocks of frescoed plaster, slaked lime, and wood that feature bold images drawn from Mexican subject matter and address themes of revolution and class inequity. After the opening to great publicity, Rivera added three more murals taking on New York subjects through monumental images of the urban working class. Published in conjunction with an exhibition that brings together key works from Rivera's 1931 show and related material, this vividly illustrated catalogue casts the artist as a highly cosmopolitan figure who moved between Russia, Mexico, and the United States and examines the intersection of art making and radical politics in the 1930s.

American Painters on Technique Lance Mayer, Gay Myers, 2013. How paintings were made, in the most literal sense, is an important but largely unknown aspect of the story of American art. This book, like the authors' previous volume on American painting techniques from the colonial period to 1860, is based on descriptions of the materials and methods that painters used as found in artists' notebooks, painting manuals, magazines, suppliers' catalogues, letters, diaries, books, and interviews. In interpreting this evidence, the authors have made use of their experience as conservators who have treated many important American paintings. Book jacket.
