articulates itself in these three ideas will philosophy do justice to its own concept In developing this line of argument Hutter finds an ally in Thomas Mann whose novel *Joseph and His Brothers* has more to say about freedom God and immortality than most contemporary philosophy does Through his reading of Mann's novel Hutter explores these three ideas in a distinctive way He brings out the intimate connection between philosophical self knowledge and narrative form Mann's novel gives expression to the depth of human self understanding and thus demands a genuinely philosophical interpretation In turn philosophical concepts are freed from abstractness by resonating with the novel's motifs and its rich language Narrative Ontology is both a highly original work of philosophy and a vigorous defence of humanism It brings together philosophy and literature in a creative way it will be of great interest to students and scholars in philosophy literature and the humanities in general
