teaching and linking secondary with post secondary education Research on programmes involving students simultaneously working and at school including non school supervised employment is also covered as is co operative education which places students in jobs related to their fields of study The traditional elements of post school education and training are discussed together with an investigation into newer approaches including career academics and career magnet schools and programmes bridging secondary and post secondary education Additionally selected studies of programmes for out of school youth are reviewed To conclude the authors consider new school to work systems and whether specially designed programmes for the non college bound students would be stigmatised as second best or if an alternative programme could maintain an option for students to attend four year colleges and universities the latter making the design and operation of school to work systems more difficult Of interest to administrators teachers policy makers analysts and employers the findings in this book will shed light on the viability of new school to work initiatives currently being implemented in the UK Europe and USA
