first book to apply the concept of the minor to the theory of photography The notion of the minor developed by Gilles Deleuze and Félix Guattari in *Kafka Towards a minor literature* 1975 is introduced and connected applied here for the very first time to the field of photography theory Deleuze and Guattari defined minor literature in terms of deterritorialization politicization and collectivization By transferring the minor to the medium of photography this book enlarges the idea of the minor and opens it up to all kinds of mutations in the process The essays gathered in this book discuss the ways in which photography can make the dominant codes of representation stammer and how it can produce new effects and address people yet to come The authors consider the minor as a valuable tool to help photography research move beyond or in between binary and hierarchized ways of thinking of high and low art for example or centre and periphery As such it aims to contribute to a rethinking of photography as multiplicity and variation Consequently the term is connected with both marginal and canonical photographic practices covering photographers as different as Miroslav Tichý Paul McCarthy Tacita Dean Dan Graham and Paul Noug After developing a theory of the minor this book explores how the operations of the minor can be found in major art practices It closes by tackling the question of photography as variation in case studies of belated forms of surrealist photography This publication is GPRC labeled Guaranteed Peer Reviewed Content *Making a Photographer* Rebecca A. The King of Orchard Street Vincent Palmieri, 2024-09-19 The King of Orchard Street is a tale told by six men including the author

over three generations and across the decades of the 1940s 1950s and 1960s Their stories recreate a world that was bound by a simple yet profound code of family respect cooperation contentment and acceptance for all Due to the passing of time these six men's lives all intersected to varying degrees but the daily living experience for each of them over thirty plus years never varied The ageless principles etched into the King of Orchard Street are more germane to this tumultuous planet than

ever before A small uncomplicated set of values that can be practiced every day by everyone may lead to a world where problems massive and minimal can be reduced then vanquished
