Janet Beizer, 2011-03-15 If questions of subjectivity and identification are at stake in all biographical writing they are particularly trenchant for contemporary women biographers of women Often their efforts to exhume buried lives in hope of finding spiritual foremothers awaken maternal phantoms that must be embraced or confronted Do women writing in fact have any greater access to their own mothers lives than to the lives of other women whose stories have been swept away like dust in the debris of the past In Thinking through the Mothers Janet Beizer surveys modern women s biographies and contemplates alternatives to an approach based in lineage and the form of thought that emphasizes the line the path hierarchy unity resemblance reflection and the aesthetic mimesis that depends on these ideas Through close readings of memoirs and fictions about mothers Beizer explores how biographers of the women who came before rehearse and rewrite relationships to their own mothers biographically as they seek to appropriate the past in a hybrid genre she calls bio autography Thinking through the Mothers features the work of George Sand and Colette and spans such varied figures as Gustave Flaubert Julian Barnes Louise Colet Eunice Lipton Vladimir Nabokov Huguette Bouchardeau and Christa Wolf Beizer seeks an alternative to women s salvation biography or resurrection biography that might resist nostalgia be attentive to silence and reinvent the means to represent the lives of precursors without appropriating traditional models of genealogy

Contemporary Italian Women Writers and Traces of the Fantastic Danielle E. Hipkins, 2007 Contemporary fantastic fiction particularly that written by women often challenges traditional literary practice At the same time the predominantly male authored canon of fantastic literature offers a problematic range of gender stereotypes for female authors to re write Love Troubles Federica Gregoratto, 2025-01-21 What does it mean to love Does love complete us giving us purpose and meaning Or does it tie us down and even harm us Is erotic desire complicit in oppression or could it deliver liberation Are our desires extricable from the wrongs of our societies And in today s world is love still worth the trouble This book develops a critical theory of sexual love and friendship offering profound new ways to understand the troublesome nature of eros Federica Gregoratto explores the ambivalence of erotic love which is at once intimately interwoven with heterosexism racism and neoliberal capitalism yet entices us with the tantalizing possibility of transformation Drawing on a rich array of sources from Frankfurt School critical theory to feminist thought and contemporary philosophies of emotions and affects as well as poetry novels films and music she argues that love provides

unexpected resources for political agency resistance and emancipation Gregoratto makes a passionate defense of erotic freedom as an adventurous process through which we understand together with others who we are and who we want to become both in our individual existences and in our social lives Wide ranging and daring Love Troubles invites us to reflect on our fraught amorous experiences showing why we should cherish and learn from them

Taking Responsibility, Law and the Changing Family Heather Keating, 2016-04-01 This volume considers the impact that changing family norms have had on the responsibilities that the law allocates to people in family relationships Contributions are drawn from a wide variety of jurisdictions in which scholars lawyers judges and policy makers have been trying to discern what the appropriate correlation should be between the responsibilities that people undertake in family settings and the law that regulates family responsibilities Part I looks at the changes that have occurred in adult relationships and what they have done for our sense of the family responsibilities that adults take for one another Part II reflects on the changing nature of the parental relationship in order to reconsider the way in which changing family structures affect the responsibilities we think people raising children should have The third part brings the rights discourse that has dominated jurisprudence for much of the last fifty years into the discussion of family transformation and the responsibilities to which it gives rise In the final section the authors reflect on the difficulties of trying to resolve the meaning of responsibility in a world of changing families The collection brings together some of the most eminent and imaginative scholars and judges working in this area It will be a valuable resource for all those interested in the legal regulation of the transforming family

on the book's first impact as well as on its continued relevance to psychoanalysis and gender studies today. Chapters offer theoretical deliberations and elaborations of the book's original themes as well as reflecting on it from more intimate angles as a source of personal and professional inspiration for feminists and clinicians around the world. This book was originally published as a special issue of *Studies in Gender and Sexuality*. [The Routledge Handbook of Psychoanalysis in the Social Sciences and Humanities](#) Anthony Elliott, Jeffrey Prager, 2016-04-14. The Routledge Handbook of Psychoanalysis in the Social Sciences and Humanities provides a comprehensive critical overview of the historical theoretical and applied forms of psychoanalytical criticism. This path-breaking Handbook offers students new ways of understanding the powers and limits of psychoanalysis and of the social, cultural, and political possibilities of psychoanalytic critique. The book offers students and professionals clear and concise chapters on the development of psychoanalysis, introducing key theories that have influenced debates over the psyche, desire, and emotion in the social sciences and humanities. There are substantive chapters on classical Freudian theory, Kleinian and Bionian theory, object relations, psychoanalysis, Lacanian and post-Lacanian approaches, feminist psychoanalysis, as well as postmodern trends in psychoanalysis. There is a strong emphasis on interdisciplinary approaches to psychoanalytic critique, with contributions drawing from developments in sociology, politics, history, cultural studies, women's studies, and architecture. *Men in Love* Vittorio Lingiardi, 2002. From the rape of Ganymede to Michelangelo's loves from the relationship of Batman and Robin to the letters between Freud and Jung, this voyage speaks eloquently about the complex relationships between men. *Braving the Erotic Field in the Psychoanalytic Treatment of Children and Adolescents* Mary Brady, 2022-03-17. *Braving the Erotic Field in the Psychoanalytic Treatment of Adolescents and Children* is a groundbreaking collection of chapters by an international group of analytic authors. The book addresses the general lack of psychoanalytic writing on working with erotic feelings in the consulting room when treating children and adolescents. This lack is doubly odd given Freud's emphasis on childhood sexuality as well as the intensities of the adolescent body/mind. This book takes the view that the subtle interchange of feelings, dreams, narratives, and images that arise when erotic feelings are in the fore is better conceptualized as an erotic field than with the binary of transference/countertransference. In contemporary psychoanalysis, the idea that transference/love offers the possibility of knowing the other in the deepest possible way is supplanting an attitude of suspicion. Clinical work with small children to late adolescents will be offered, including gay and gender fluid adolescents. This book makes a decisive contribution to assist clinicians to brave the erotic field with children and adolescents.

Critique on the Couch Amy Allen, 2020-12-01. Does critical theory still need psychoanalysis? In *Critique on the Couch*, Amy Allen offers a cogent and convincing defense of its ongoing relevance. Countering the overly rationalist and progressivist interpretations of psychoanalysis put forward by contemporary critical theorists such as Jürgen Habermas and Axel Honneth, Allen argues that the work of Melanie Klein offers an underutilized resource. She draws on Freud, Klein, and Lacan to develop a more realistic strand of psychoanalytic thinking that centers on notions of loss, negativity, ambivalence, and mourning. Far

from leading to despair such an understanding of human subjectivity functions as a foundation of creativity productive self transformation and progressive social change At a time when critical theorists are increasingly returning to psychoanalytic thought to diagnose the dysfunctions of our politics this book opens up new ways of understanding the political implications of psychoanalysis while preserving the progressive emancipatory aims of critique Mothering and Psychoanalysis: Clinical, Sociological and Feminist Perspectives Petra Bueskens,2014-07-01 **Kohut, Loewald and the Postmoderns** Judith G. Teicholz,2015-12-22 In Kohut Loewald and the Postmoderns Judith Teicholz using the contemporary critique of Kohut and Loewald as a touchstone of inquiry into the current status of psychoanalysis focuses on a select group of postmodern theorists whose recent writings comprise a questioning subtext to Kohut s and Loewald s ideas Acutely aware of the important differences among these theorists Teicholz nonetheless believes that their respective contributions which present psychoanalysis as an interactive process in which the analyst s own subjectivity plays a constitutive role in the joint construction of meanings achieve shared significance as a postmodern critique of Kohut and Loewald She is especially concerned with the relationship both theoretically and technically between Kohut s emphasis on the analyst s empathic resonance with the analysand s viewpoint and affect and the postmodern theorists shared insistence on the expression of the analyst s own subjectivity in the treatment situation Her analysis incorporates fine insight into the tensions and ambiguities in Kohut and Loewald whose work ultimately emerges as a way station between modern and postmodern viewpoints and her appreciation of Kohut and Loewald as transitional theorists makes for an admirably even handed exposition She emphasizes throughout the various ways in which Kohut and Loewald gave nascent expression to postmodern attitudes but she is no less appreciative of the originality of postmodern theorists who address genuine lacunae in the thought and writings of these exemplars of an earlier generation Teicholz s examination of what she terms two overlapping partial revolutions in psychoanalysis that of Kohut and Loewald on one hand and of the postmoderns on the other throws an illuminating searchlight on the path psychoanalysis has traveled over the last quarter of the 20th century Trauma-Informed Pedagogy in Higher Education Ernest Stromberg,2023-05-09 This volume explores the current state of student mental health and trauma while offering theories and practice of trauma informed teaching and learning The interdisciplinary authors gathered in this collection discuss the roles practices and structures in higher education that can support the wellness and academic success of students who suffer from the effects of traumatic experiences Chapters cover topics on teaching traumatic materials ethically and effectively reading and writing to support recovery and healing from trauma inclusive pedagogies responsive to systemically inflicted trauma and developing institutional structures to support trauma informed pedagogies This timely and important book is designed for faculty in institutions of higher education seeking to meaningfully cultivate trauma informed classes and learning experiences for their students **Taking Responsibility, Law and the Changing Family** Mr Craig Lind,Ms Heather Keating,Ms Jo Bridgeman,2013-02-28 This volume considers the impact that changing

family norms have had on the responsibilities that the law allocates to people in family relationships Contributions are drawn from a wide variety of jurisdictions in which scholars lawyers judges and policy makers have been trying to discern what the appropriate correlation should be between the responsibilities that people undertake in family settings and the law that regulates family responsibilities Part I looks at the changes that have occurred in adult relationships and what they have done for our sense of the family responsibilities that adults take for one another Part II reflects on the changing nature of the parental relationship in order to reconsider the way in which changing family structures affect the responsibilities we think people raising children should have The third part brings the rights discourse that has dominated jurisprudence for much of the last fifty years into the discussion of family transformation and the responsibilities to which it gives rise In the final section the authors reflect on the difficulties of trying to resolve the meaning of responsibility in a world of changing families The collection brings together some of the most eminent and imaginative scholars and judges working in this area It will be a valuable resource for all those interested in the legal regulation of the transforming family

Death and Mastery

Benjamin Y. Fong, 2016-11-08 The first philosophers of the Frankfurt School famously turned to the psychoanalytic theories of Sigmund Freud to supplement their Marxist analyses of ideological subjectification Since the collapse of their proposed marriage of Marx and Freud psychology and social theory have grown apart to the impoverishment of both Returning to this union Benjamin Y Fong reconstructs the psychoanalytic foundation stone of critical theory in an effort to once again think together the possibility of psychic and social transformation Drawing on the work of Hans Loewald and Jacques Lacan Fong complicates the famous antagonism between Eros and the death drive in reference to a third term the woefully undertheorized drive to mastery Rejuvenating Freudian metapsychology through the lens of this pivotal concept he then provides fresh perspective on Theodor Adorno Max Horkheimer and Herbert Marcuse's critiques of psychic life under the influence of modern cultural and technological change The result is a novel vision of critical theory that rearticulates the nature of subjection in late capitalism and renews an old project of resistance
