suggests that all the late pre imperial regional scripts derived from a kind of orthographic meta system based on one spoken standard language This orthography and its phonological systems should reasonably be dated to ca 9th century BCE just about the time when the earliest known Chinese lexicography Book of Scribe Zhou ca 830 BCE was written The conclusions of this book have further implications on reading and understanding manuscript texts in general as well as on using them as data for linguistic studies      **The Hart-Scott-Rodino Antitrust Improvements Act of 1976** ,1987      **Utopia** Saint
