Liminal Zones Where Lakes End And Rivers Begin:

Liminal Zones Kim Trevathan, 2013-05-30 After the death of his paddling companion a German shepherd labrador retriever mix named Jasper Kim Trevathan began a series of solitary upstream kayaking quests in search of what he calls liminal zones transitional areas where dammed reservoirs give way to the current of the rivers that feed them For four years he scoured the rivers and lakes of America where environmentally damaging and now decaying man made structures have transformed the waterways In this thoughtful work he details his upriver adventures describing the ecological and aesthetic differences between a dammed river and a free flowing river and exploring the implications of what liminal zones represent a reassertion of pure unadulterated nature over engineered bodies of water Trevathan began by exploring the rivers and creeks of his childhood the Blood River and Clarks River in western Kentucky He soon ventured out to the Wolf River the Big South Fork of the Cumberland and other waterways in Tennessee In 2008 he looped around the country with trips to Indiana s Tippecanoe River Montana s Clearwater River Oregon s Deschutes and Rogue Rivers and Colorado s Dolores River as well as adventures on such southeastern rivers as the Edisto the Tellico and the Nantahala To Trevathan paddling upstream became a sort of religion with a vaporous deity that kept him searching Each excursion yielded something unexpected from a near drowning in the Rogue River to a mysterious fog bank that arose across the Nantahala at midday Throughout *Liminal Zones* Trevathan considers what makes certain places special why some are set aside and protected why others are not and how free flowing streams remain valuable to our culture our history and our physical and spiritual health This contemplative chronicle of his journeys by water reveals discoveries as varied and complex as the rivers themselves [Liberal Arts Perspectives on Globalism and Transnationalism](#) Hyun Wu Lee, Mark van de Logt, 2019-11-29 As international trade and economic activities expand online technologies spread and restless populations shift across international boundaries reactionary movements have sprung up around the globe These reactionary forces which include nationalism and populism have exposed many blind spots of ongoing globalization projects To understand the frictions between transnational enterprises and local resistance more fully as well as analyze the human cost of immigration and the threats posed by online technologies scholars from around the world gathered in Doha Qatar for the Sixth Annual Liberal Arts International Conference 2018 This volume based on selected papers from this meeting discusses the roles and effects of transnational and cross cultural education technology migrant workers and refugees and research methodologies in order to understand current challenges surrounding globalization [Oregon Historical Quarterly](#), 2014 **Montana**, 2013 **World's End** Mark Chadbourn, 2010-06-28 A dragon firebombs a freeway Shape shifters stalk the commercial district The deadly Wild Hunt wreaks havoc on the highway The Age of Misrule has dawned When Jack Churchill and Ruth Gallagher encounter a terrifying misshapen giant beneath a London bridge they are plunged into a mystery that portends the end of the world as we know it All over the country the ancient gods of Celtic myth are returning to the land from which they were banished

millennia ago Following in their footsteps are creatures of folklore fabulous beasts wonders and dark terrors As technology starts to fail Jack and Ruth are forced to embark on a desperate quest for four magical items the last chance for humanity in the face of powers barely comprehended A pedal to the floor high octane fantasy thriller that pitches magic and wonder into a pop culture mash up of the modern world Described as One part Lord of the Rings one part Illuminatus one part Arthurian romance one part Harry Potter 100 % original From the Trade Paperback edition *The Archaeology of Maritime Landscapes* Ben Ford, 2011-05-21 Maritime cultural landscapes are collections of submerged archaeological sites or combinations of terrestrial and submerged sites that reflect the relationship between humans and the water These landscapes can range in size from a single beach to an entire coastline and can include areas of terrestrial sites now inundated as well as underwater sites that are now desiccated However what binds all of these sites together is the premise that each aspect of the landscape cultural political environmental technological and physical is interrelated and can not be understood without reference to the others In this maritime cultural landscape approach individual sites are treated as features within the larger landscape and the interpretation of single sites add to a larger analysis of a region or culture This approach provides physical and theoretical links between terrestrial and underwater archaeology as well as prehistoric and historic archaeology consequently providing a framework for integrating such diverse topics as trade resource procurement habitation industrial production and warfare into a holistic study of the past Landscape studies foster broader perspectives and approaches extending the study of maritime cultures beyond the shoreline Despite this potential the archaeological study of maritime landscapes is a relatively untried approach with many questions regarding the methods and perspectives needed to effectively analyze these landscapes The chapters in this volume which include contributions from the United States the United Kingdom Norway and Australia address many of the theoretical and methodological questions surrounding maritime cultural landscapes The authors comprise established scholars as well as archaeologists at the beginning of their careers providing a healthy balance of experience and innovation The chapters also demonstrate parity between method and theory where the varying interpretations of culture and space are given equal weight with the challenges of investigating both wet and dry sites across large areas **Leadership in Unknown Waters** Lisa Withrow, 2020-10-29 Leadership in Unknown Waters invites organizational leaders and their teams to engage powerful questions amidst ambiguity and uncertainty as they move from the way things were to an emerging future This liminality a threshold in space and time allowing for transition from something old to something new is fraught with both difficulty and opportunity Leaders teams and individuals who navigate this space skillfully will land in surprisingly dynamic places encountering stories metaphors and inspiration for traversing the threshold not only competently but with curiosity and confidence In this way futures are created that are not possible with fear based planning or quick fixes Withrow s method intersects the human imagination through a visual living metaphor water with attention to space liminality or transitional space and focus on role leadership development for

powerful engagement with what organizational learning theorists call the emerging future Here the theoretical meets the practical and research informs the how to and why Diving into unknown waters with tools and wisdom can create a better future for all who face change whether within corporations not for profit organizations faith communities family systems or interpersonal relationships

Liminality, Transgression and Space Across the World Basak Tanulku, Simone Pekelsma, 2024-03-05 This book analyses various forms of liminality and transgression in different geographies and demonstrates how and why various physical and symbolic boundaries create liminality and transgression Its focus is on comprehending the ways in which these borders and boundaries generate liminality and transgression rather than viewing them solely as issues It provides case studies from the past and present allowing readers to connect subjects periods and geographies It consists of theoretical and empirical chapters that demonstrate how borders and liminality are interconnected The book also benefits from the power of several visual essays by artists to complete the theoretical and empirical chapters which demonstrate different forms of liminality without need of much words The book will be of interest to researchers and students working in the fields of urban and rural studies urban sociology cities and communities urban and regional planning urban anthropology political science migration studies human geography cultural geography urban anthropology and visual arts

The Inscription of Things Thomas Kelly, 2023-11-14 Why would an inkstone have a poem inscribed on it Early modern Chinese writers did not limit themselves to working with brushes and ink and their texts were not confined to woodblock printed books or the boundaries of the paper page Poets carved lines of verse onto cups ladles animal horns seashells walking sticks boxes fans daggers teapots and musical instruments Calligraphers left messages on the implements ordinarily used for writing on paper These inscriptions terse compositions in verse or epigrammatic prose relate in complex ways to the objects on which they are written Thomas Kelly develops a new account of the relationship between Chinese literature and material culture by examining inscribed objects from the late Ming and early to mid Qing dynasties He considers how the literary qualities of inscriptions interact with the visual and physical properties of the things that bear them Kelly argues that inscribing an object became a means for authors to grapple with the materiality and technologies of writing Facing profound social upheavals from volatility in the marketplace to the violence of dynastic transition writers turned to inscriptions to reflect on their investments in and dependence on the permanence of the written word Shedding new light on cultures of writing in early modern China *The Inscription of Things* broadens understandings of the links between the literary and the material

Prehistoric London Simon Webb, 2025-07-30 Despite the vast amount of work written and published about London there has never before been a full length book covering the history of that part of the Thames Valley before the arrival of the Romans Beginning in the Cretaceous Era which ended 66 million years ago *Prehistoric London* examines the geology of this part of Britain and explains why this particular section of the Thames proved to be the ideal location for a city It describes too the animals and people who were attracted to the area by the conditions there From the time of the

dinosaurs through to the Iron Age and the Roman invasion in 43 AD this is a comprehensive account of London before London It is the story of the land and those who dwelt there before anybody had thought of founding a city on the banks of the Thames In addition to being a history book though Prehistoric London is also a lively guidebook which explains how to explore modern London and find such things as Iron Age hillforts and a site where anybody can dig sharks teeth from the sand of a 55 million year old seabed This book will reveal the backstory of London and show readers what was happening in the capital long before a single stone was laid of the city we know today Extracting Home in the Oil Sands Clinton

Westman,Tara Joly,Lena Gross,2019-12-06 The Canadian oil sands are one of the world s most important energy sources and the subject of global attention in relation to climate change and pollution This volume engages ethnographically with key issues concerning the oil sands by working from anthropological literature and beyond to explore how people struggle to make and hold on to diverse senses of home in the region The contributors draw on diverse fieldwork experiences with communities in Alberta that are affected by the oil sands industry Through a series of case studies they illuminate the complexities inherent in the entanglements of race class Indigeneity gender and ontological concerns in a regional context characterized by extreme extraction The chapters are unified in a common concern for ethnographically theorizing settler colonialism sentient landscapes and multispecies relations within a critical political ecology framework and by the prominent role that extractive industries play in shaping new relations between Indigenous Peoples the state newcomers corporations plants animals and the land Urban Flotsam Raoul Bunschoten,Hélène Binet,Takuro Hoshino,Chora,2001 The manner in

which global trends affect cities and increase instability is like letting a rising river loose on a house Global trends create urban flotsam that forms a second skin of the earth How is this visible and how can it be useful in urban planning This book answers questions through examples It contains a manifesto for a general debate of issues a poetic setting of the theme of the second skin and case studies undertaken in urban situations With splendid photographs and magnificent conceptual maps and diagrams the book balances between urban theory urban pedagogy and urban poetry Dispatches from the End of Ice Beth Peterson,2019-11-28 The future of the world s ice is at a critical juncture marked by international debate about climate change and almost daily reports about glaciers and ice shelves breaking oceans rising and temperatures spiking across the globe These changing landscapes and the public discourse surrounding them are changing fast It is science wrought with mystery and for Beth Peterson it became personal A few months after Peterson moved to a tiny village on the edge of Europe s largest glacier things began to disappear The glacier was melting at breakneck pace and people she knew vanished her professor went missing while summiting a volcano in Japan and a friend wandered off a mountain trail in Norway Finally Peterson took a harrowing forty foot fall while ice climbing Peterson s effort to make sense of these losses led to travels across Scandinavia Italy England and back to the United States She visited a cryonics institute an ice core lab a wunderkammer Wittgenstein s cabin and other museums and libraries She spoke with historians guides and scientists in

search of answers Her search for a noted glacier museum in Norway led to news that the renowned building had set on fire in the middle of the night before and burned to the ground Dispatches from the End of Ice is part science part lyric essay and part research reportage all structured around a series of found artifacts a map a museum an inventory a book in an attempt to understand the idea of disappearance It is a brilliant synthesis of science storytelling and research in the spirit of essayists like Robert Macfarlane John McPhee and Joni Tevis Peterson s work veers into numerous terrains orbiting the idea of vanishing and the taxonomies of loss both in an unstable world and in our individual lives *Greatest Rowing Stories Ever Told* Göran R. Buckhorn,2023-10-01 The Greatest Rowing Stories Ever Told collects articles and excerpts of classic rowing stories from the inception of the sport on English waters in the eighteenth century through the scandalous era of professionalism and gambling of the nineteenth century to the popular amateur sport of today The contributors include prominent oarsmen and women historians of the sport and even poets and songwriters Recall here the great rivalries the pageantry of the regattas the poetic solitude of the single sculler and many other aspects of a sport entering its third century

The Origins of Canadian and American Political Differences Jason Kaufman,2009-02-16 Why do the United States and Canada have such divergent political cultures when they share one of the closest economic and cultural relationships in the world Kaufman examines the North American political landscape to draw out the essential historical factors that underlie the countries differences

The Discourses of Environmental Collapse Alison E. Vogelaar,Brack W. Hale,Alexandra Peat,2018-03-22 In recent years environmental collapse has become an important way of framing and imagining environmental change and destruction referencing issues such as climate change species extinction and deteriorating ecosystems Given its pervasiveness across disciplines and spheres this edited volume articulates environmental collapse as a discursive phenomenon worthy of sustained critical attention Building upon contemporary conversations in the fields of archaeology and the natural sciences this volume coalesces explores and critically evaluates the diverse array of literatures and imaginaries that constitute environmental collapse The volume is divided into three sections Doc Collapse Pop Collapse and Craft Collapse that independently explore distinct modes of representing and implicit attitudes toward environmental collapse from the lenses of diverse fields of study including climate science and policy cinema and photo journalism Bringing together a broad range of topics and authors this volume will be of great interest to scholars of environmental communication and environmental humanities

The Liminal and The Luminescent Terrill L. Gibson,2021-12-21 Our world is bathed in ongoing biological political cultural climate and spiritual crises that seem endless If anything these disruptions appear to be spiraling into ever larger threat fronts that challenge our survival as a species Carl Gustav Jung renowned Swiss psychiatrist avowed in his archetypal psychology that there is a portal of transforming possibility if we have the courage to enter that doorway That threshold entering demands that we embrace our individual and collective sufferings and then seek the path of meaning and destiny that is always resident deeply at the core of such trauma This book narrates

how this destiny is found and lived forward for both each individual life and for our varied human cultures It affirms and gives examples of the deep soul dimension of life that lies under the often chaotic surface the liminal realm of animate and guiding dream vision myth and spirituality where the gods meet us so that we all can find our mutual way Home This liminal world is navigated through the metaphoric and literalness of pilgrimage performance and political processes in our personal and cultural lives What might be your path of destiny

Celtic Mythology Sarah Coleman, AI, 2025-03-29 Celtic Mythology explores the rich tapestry of Celtic beliefs druids and legendary figures revealing their surprising and continued influence on modern culture While complete written records from the Celts are scarce archaeological findings and accounts from classical writers along with medieval manuscripts offer valuable insights The book argues that core Celtic narratives have subtly shaped Western culture One intriguing fact is the role of druids as spiritual leaders and keepers of knowledge often misunderstood in popular culture The book begins by defining key terms and outlining the historical context then explores the Celtic pantheon the Otherworld the druids and legendary figures like C Chulainn and Queen Maeve Analyzing sources such as the Mabinogion and the Ulster Cycle the book avoids romanticized notions to engage with the complexities of Celtic history and culture Finally it demonstrates the continuing presence of Celtic motifs in modern fantasy literature film and contemporary spirituality illustrated with specific examples
