Postcolonial Youth in Contemporary British Fiction ,2021-07-19

The concepts of youth and the postcolonial both inhabit a liminal locus where new ways of being in the world are rehearsed and struggle for recognition against the impositions of dominant power structures Departing from this premise the present volume focuses on the experience of postcolonial youngsters in contemporary Britain as rendered in fiction thus envisioning the postcolonial as a site of fruitful and potentially transformative friction between different identitary variables or sociocultural interpellations In so doing this volume provides varied evidence of the ability of literature and of the short story genre in particular to represent and swiftly respond to a rapidly changing world as well as to the new socio cultural realities and conflicts affecting our current global order and the generations to come Contributors are Isabel M Andr s Cuevas Isabel Carrera Su rez Claire Chambers Blanka Grzegorzczuk Bettina Jansen Indrani Karmakar Carmen Lara Rallo Laura Mar a Lojo Rodr guez Noem Pereira Ares G rald Pr her Susanne Reichl Carla Rodr guez Gonz lez Jorge Sacido Romero Karima Thomas

and Laura Torres Ziga Modernist Short Fiction by Women Claire Drewery,2016-04-15 Taking on the neglected issue of the short story's relationship to literary Modernism Claire Drewery examines works by Katherine Mansfield Dorothy Richardson May Sinclair and Virginia Woolf Drewery argues that the short story as a genre is preoccupied with transgressing boundaries and thus offers an ideal platform from which to examine the Modernist fascination with the liminal Embodying both liberation and restriction liminal spaces on the one hand enable challenges to traditional cultural and personal identities while on the other hand they entail the inevitable negative consequences of occupying the position of the outsider marginality psychosis and death Mansfield Richardson Sinclair and Woolf all exploit this paradox in their short fiction which typically explores literal and psychological borderline states that are resistant to rational analysis Thus their short stories offered these authors an opportunity to represent the borders of unconsciousness and to articulate meaning while also conveying a sense of that which is unsayable Through their concern with liminality Drewery shows these writers contribute significantly to the Modernist aesthetic that interrogates identity the construction of the self and the relationship between the individual and society Handbook of Transatlantic North American Studies Julia Straub,2016-05-10 Transatlantic literary studies have provided important new perspectives on North American British and Irish literature They have led to a revision of literary history and the idea of a national literature They have changed the perception of the Anglo American literary market and its many processes of transatlantic production distribution reception and criticism Rather than dwelling on comparisons or engaging with the notion of influence transatlantic literary studies seek to understand North American British and Irish literature as linked with each other by virtue of multi layered historical and cultural ties and pay special attention to the many refractions and mutual interferences that have characterized these traditions since colonial times This handbook brings together articles that summarize some of the crucial transatlantic concepts debates and topics The contributions contained in this volume examine periods in literary and cultural history literary movements individual authors as well as genres from a transatlantic perspective combining theoretical insight with textual analysis **Current Topics in Language and Literature** Nataša Bakić-Mirić,2019-03-25 This volume brings together 15 peer reviewed papers which discuss numerous current topics in language and literature It synthesizes various contemporary practical topics in post secondary education written by active researchers and practitioners in their respective areas By using research methods such as mixed methods case studies discourse analysis grounded theory and the repertory grid the contributors offer insights into the ways in which higher education continuously changes and evolves to face constant challenges resulting from new instructional practices Taking this into consideration this book will help educators researchers and students to keep up with these changes and to stay aware of contemporary issues relating to post secondary education The Art of Translation in Light of Bakhtin's Re-accentuation Slav Gratchev,Margarita Marinova,2022-10-06 Although Mikhail Bakhtin's study of the novel does not focus in any systematic way on the role that translation plays in the processes of novelistic creation and

dissemination when he does broach the topic he grants translation a disproportionately significant role in the emergence and constitution of literature The contributors to this volume from the US Hong Kong Finland Japan Spain Italy Bangladesh and Belgium bring their own polyphonic experiences with the theory and practice of translation to the discussion of Bakhtin's ideas about this topic in order to illuminate their relevance to translation studies today Broadly stated the essays examine the art of translation as an exercise in a cultural re accentuation a transferal of the original text and its characters to the novel soil of a different language and culture which inevitably leads to the proliferation of multivalent meanings and to explore the various re accentuation devices employed over the span of the last 100 years in translating modern texts from one language to another Through its contributors The Art of Translation in Light of Bakhtin's Re accentuation brings together different cultural contexts and disciplines such as literature literary theory the visual arts pedagogy translation studies and philosophy to demonstrate the continued international relevance of Bakhtin's ideas to the study of creative practices broadly understood

Moveable Designs, Liminal Aesthetics, and Cultural Production in America since 1772 Stefan L. Brandt, 2022-11-30 The book explores the liminal aesthetics of U S cultural and literary practice Interrogating the notion of a presumptive unity of the American experience Moveable Designs argues that inner conflict divisiveness and contradiction are integral to the nation's cultural designs themes and motifs The study suggests that U S literary and cultural practice is permeated by moveable designs flexible yet constant features of hegemonial practice that constitute an integral element of American national self fashioning The naturally pervasive liminality of U S cultural production is the key to understanding the resilience of American culture Moveable Designs looks at artistic expressions across various media types literature paintings film television seeking to illuminate critical phases of U S American literature and culture from the revolutionary years to the movements of romanticism realism and modernism up to the postmodern era It combines a wide array of approaches from cultural history and social anthropology to phenomenology Connecting an analysis of literary and cultural texts with approaches from design theory the book proposes a new way of understanding American culture as design It is one of the unique characteristics of American culture that it creates or rather designs potency out of its inner conflicts and apparent disunities That which we describe as an identifiable American identity is actually the product of highly vulnerable alternating processes of dissolution and self affirmation

Liminality in Fantastic Fiction Sandor Klapcsik, 2012-01-09 This critical work diversifies Victor Turner's concept of liminality a basic category of postmodernism in which distinct categories and hierarchies are questioned and limits erode Liminality involves an oscillation between cultural institutions genre conventions narrative perspectives and thematic binary oppositions Grounded on this notion the text investigates the liminality in Agatha Christie's detective fiction Neil Gaiman's fantasy stories and Stanislaw Lem's and Philip K Dick's science fiction Through an examination of destabilized norms this analysis demonstrates that liminality is a key element in the changing trends of fantastic texts

Permanent Liminality and Modernity Arpad Szakolczai, 2016-10-04 This book offers a comprehensive

sociological study of the nature and dynamics of the modern world through the use of a series of anthropological concepts including the trickster schismogenesis imitation and liminality Developing the view that with the theatre playing a central role the modern world is conditioned as much by cultural processes as it is by economic technological or scientific ones the author contends the world is to a considerable extent theatrical a phenomenon experienced as inauthenticity or a loss of direction and meaning As such the novel is revealed as a means for studying our theatricalised reality not simply because novels can be understood to be likening the world to theatre but because they effectively capture and present the reality of a world that has been thoroughly theatricalised and they do so more effectively than the main instruments usually employed to analyse reality philosophy and sociology With analyses of some of the most important novelists and novels of modern culture including Rilke Hofmannsthal Kafka Mann Blixen Broch and Bulgakov and focusing on fin de siècle Vienna as a crucial threshold chronotope of modernity Permanent Liminality and Modernity demonstrates that all seek to investigate and unmask the theatricalisation of modern life with its progressive loss of meaning and our deteriorating capacity to distinguish between what is meaningful and what is artificial Drawing on the work of Nietzsche Bakhtin and Girard to examine the ways in which novels explore the reduction of human existence to a state of permanent liminality in the form of a sacrificial carnival this book will appeal to scholars of social anthropological and literary theory

Monstrous Liminality Robert G. Beghetto, 2022-01-24 This book examines the transformation of the figure of the stranger in the literature of the modern age in terms of liminality As a spectral monster that has a paradoxical and liminal relationship to both the sacred and the secular the figure of the modern stranger has played a role in both adapting and shaping a culturally determined understanding of the self and the other With the advent of modernity the stranger the monster and the spectre became interconnected Haunting the edges of reason while also being absorbed into normal society all three together with the cyborg manifest the vulnerability of an age that is fearful of the return of the repressed Yet these figures can also become reappropriated as positive symbols able to navigate between the dangerous and chaotic elements that threaten society while serving as precarious and ironic symbols of hope or sustainability The book shows the explanatory potential of focusing on the resacralizing in a paradoxical and liminal manner of traditionally sacred concepts such as messianic time and the utopian and the conflicts that emerged as a result of secularized modernity's denial of its own hybridization This approach to modern literature shows how the modern stranger a figure that is both paradoxically immersed and removed from society deals with the dangers of failing to be re-assimilated into mainstream society and is caught in a fixed or permanent state of liminality a state that can ultimately lead to boredom alienation nihilism and failure These monstrous aspects of liminality can also be rewarding in that traversing difficult and paradoxical avenues they confront both traditional and contemporary viewpoints enabling new and fresh perspectives suspended between imagination and reality past and future nature and artificial In many ways the modern stranger as a figure of literature and the cultural imagination has become more complicated and

challenging in the post modern contemporary age both clashing with and encompassing people who go beyond simply the psychological or even spiritual inability to blend in and out of society However while the stranger may be altering once again the defining or essentializing the figure could result in the creation of other sets of binaries and thereby dissolve the purpose and productiveness of both strangeness and liminality The intention of *Monstrous Liminality* is to trace the liminal sphere located between the secular and sacred that has characterized modernity itself This space has consequently altered the makeup of the stranger from something external into a figure far more liminal which is forced to traverse this uncanny space in an attempt to find new meanings for an age that is struggling to maintain any

Borderlands and Liminal Subjects

Jessica Elbert Decker, Dylan Winchock, 2017-11-15 Borders are essentially imaginary structures but their effects are very real This volume explores both geopolitical and conceptual borders through an interdisciplinary lens bridging the disciplines of philosophy and literature With contributions from scholars around the world this collection closely examines the concepts of race nationality gender and sexuality in order to reveal the paradoxical ambiguities inherent in these seemingly solid binary oppositions while critiquing structures of power that produce and police these borders As a political paradigm liminality may be embraced by marginal subjects and communities further blurring the boundaries between oppressive distinctions and categories
