**Integrated Care in Psychiatry** Paul Summergrad, Roger G. Kathol, 2014-04-26 Integrated Care in Psychiatry Redefining the Role of Mental Health Professionals in the Medical Setting is a landmark title in the field offering a clear detailed and cohesive call by leading experts for coordinated care for patients

with concurrent psychiatric and medical conditions The renowned editors and authors argue that what is slowly occurring and greatly needed at a faster pace is nothing less than a sea change in the way that psychiatric care will be delivered The current mostly segregated medical and psychiatric model of care has led to the development of competing medical and psychiatric subcultures that have resulted in a lack of dialog among health providers administrators and payers and thus in less than optimal patient outcomes To remedy this problem the book offers a practical insightful road map to achieving the central tenet of health reform truly coordinated patient centered care where the care experience for the patient the medical care itself and the cost outcomes improve as the system changes from fee for service to population based health An invaluable reference for all clinicians policy makers payers administrators and others interested in the debate surrounding healthcare systems Integrated Care in Psychiatry Redefining the Role of Mental Health Professionals in the Medical Setting is a major contribution to the literature and a gold standard resource

**Age-Adjusted Psychiatric Treatment for the Older Patient** Howard H. Fenn,James A. Bourgeois,Catharine Birtley Fenn,2024-06-10 This book offers practical age adjusted recommendations to treat the most common psychiatric symptoms and syndromes in the geriatric patient The principles described here are not new advice for prescribing to the aging patient has always been to start low go slow This book fleshes out that dictum based on research evidence clinical experience and trends in the literature An age adjusted approach endorses medication interventions when needed as part of a comprehensive treatment plan A combination of psychotherapeutic interventions non pharmacological modalities and judiciously managed medications can improve quality of life and minimize risks inherent in pharmacotherapy applied to aging physiology Age Adjusted Psychiatric Treatment for the Older Patient is divided into five sections covering the foundations of

evaluation and treatment neurocognitive disorders psychiatric syndromes therapeutics and interventions and special topics Each chapter begins with a complex case example that illustrates the topic It then reviews current evidence based evaluation and treatments Age adjusted recommendations distilled from the literature are offered at the end of each chapter The intent is to provide actionable advice to supplement but not supplant good clinical judgement which can improve quality of life by managing psychiatric symptomatology while averting untoward results This volume is an essential guide for experienced clinicians as well as trainees across many health care disciplines both generalists and geriatric specialists who all see increasing numbers of aged patients with psychiatric symptomatology

**Mental Health and Development** Natalie Drew,Michelle Funk,World Health Organization,2010 This report presents compelling evidence that people with mental health conditions meet major criteria for vulnerability The report also describes how vulnerability can lead to poor mental health and how mental health conditions are widespread yet largely unaddressed among groups identified as vulnerable It argues that mental health should be included in sectoral and broader development strategies and plans and that development stakeholders have important roles to play in ensuring that people with mental health conditions are recognized as a vulnerable group and are not excluded from development opportunities The recommended actions in this report provide a starting point to achieve these aims Page xxiv
