Mystery School in Hyperspace Graham St

John, 2015-11-24 Since the mid 1950s the psychoactive compound DMT has attracted the attention of experimentalists and prohibitionists scientists and artists alchemists and hyperspace emissaries While most known as a crucial component of the jungle alchemy that is ayahuasca DMT is a unique story unto itself Until now this story has remained untold Mystery School in Hyperspace is the first book to delve into the history of this substance the discovery of its properties and the impact it has had on poets artists and musicians DMT has appeared at crucial junctures in countercultural history William Burroughs was jacking the spice in Tangier at the turn of the 1960s It was present at the meeting between Ken Kesey's Merry Pranksters and Tim Leary's associates It guided the inception of the Grateful Dead in 1965 It showed up in Berkeley in the same year falling into the hands of Terence McKenna who would eventually become its champion in the post rave neo psychedelic movement of the 1990s Its indole vapor drifted through Portugal's Boom Festival and has been evident at Nevada's Burning Man where DMT has been adopted as spiritual technology supplying shape color and depth to a visionary art movement The growing prevalence of use is evident in a vast networked independent research culture and in its impact on fiction film music and metaphysics As this book traces the effect of DMT's release into the cultural bloodstream the results should be of great interest to contemporary readers The book permits a broad reading audience to join ongoing debates in studies in consciousness and theology where the brain is held to be either a generator or a receiver of consciousness The implications of the spirit molecule or the brain's own psychedelic among other theories illustrate that DMT may lift the lid on the Pandora's Box of consciousness Features a foreword by Dennis McKenna cover art by Beau Deeley and thirty color illustrations by various artists including Alex Grey Android Jones Martina Hoffmann Luke Brown Carey Thompson Adam Scott Miller Randal Roberts along with Jay Bryan Cyb Orryelle Defenestrade Bascule Art Van D lay Stuart Griggs Jay Lincoln Gwyllm Llwydd Shiptu Shaboo Marianna Stelmach and Mister Strange Regarded as the nightmare hallucinogen or celebrated as the spirit

molecule labelled psychotogenic or entheogenic considered a dangerous drug or the suspected X factor in the evolution of consciousness DMT is a powerful enigma Documenting the scientists and artists drawn into its sphere of influence navigating the liminal aesthetics of the breakthrough experience tracing the novum of hyperspace in esoteric and science fiction currents Mystery School in Hyperspace excavates the significance of this enigmatic phenomenon in the modern world Exposing a great many myths this cultural history reveals how DMT has had a beneficial influence on the lives of those belonging to a vast underground network whose reports and initiatives expose drug war propaganda and shine a light in the shadows This conversation is highly relevant at a time when significant advances are being made to lift the moratorium on human research with psychedelics [High Culture](#) Christopher Partridge, 2018-06-01 History is littered with evidence of humanity's fascination with drugs and the pursuit of altered states From early Romanticism to late nineteenth century occultism and from fin de siècle Paris to contemporary psychedelic shamanism psychoactive substances have played catalyzing people Yet serious analysis of the religious dimensions of modern drug use is still lacking the use of drugs and the pursuit of transcendence from the nineteenth century to the present day Beginning with the Romantic fascination with opium it chronicles the discovery of anesthetics the psychiatric and religious interest in hashish the bewitching power of mescaline and hallucinogenic fungi the more recent uses of LSD as well as the debates surrounding drugs and religious experience This fascinating and wide ranging sociological and cultural history fills a major gap in the study of religion in the modern world and our understanding of the importance of countercultural thought offering new and timely insights into the controversial relationship between drugs and mystical experience [Tryptamine Palace](#) James Oroc, 2009-05-21 A journey from Burning Man to the Akashic Field that suggests how 5 MeO DMT triggers the human capacity for higher knowledge through direct contact with the zero point field Examines Bufo alvarius toad venom which contains the potent natural psychedelic 5 MeO DMT and explores its entheogenic use Proposes a new connection between the findings of modern physics and the knowledge held by shamans and religious sages for millennia The venom from Bufo alvarius an unusual toad found in the Sonoran desert contains 5 MeO DMT a potent natural chemical similar in effect to the more common entheogen DMT The venom can be dried into a powder which some researchers speculate was used ceremonially by Amerindian shamans When smoked it prompts an instantaneous break with the physical world that causes out of body experiences completely removed from the conventional dimensions of reality In Tryptamine Palace James Oroc shares his personal experiences with 5 MeODMT which led to a complete transformation of his understanding of himself and of the very fabric of reality Driven to comprehend the transformational properties of this substance Oroc combined extensive studies of physics and philosophy with the epiphanies he gained from his time at Burning Man He discovered that ingesting tryptamines unlocked a fundamental human capacity for higher knowledge through direct contact with the zero point field of modern physics known to the ancients as the Akashic Field In the quantum world of nonlocal interactions the line between the

physical and the mental dissolves 5 MeO DMT Oroc argues can act as a means to awaken the remarkable capacities of the human soul as well as restore experiential mystical spirituality to Western civilization **My Altered States** Rick Strassman, 2024-12-10 Recounts several dozen of the author's experiences of drug and non drug altered states of consciousness from birth to early adulthood Applies the lenses of four explanatory models psychoanalysis psychopharmacology Zen Buddhism and medieval Jewish metaphysics in understanding how and why they occurred Demonstrates the importance of careful unflinching recollection and documentation of both heavenly and hellish altered states in one's psychological emotional and spiritual life Why do we seek out altered states of consciousness or why in some cases do they happen unbidden What do we see and hear and what happens emotionally physically and psychologically How and why are these experiences different from or similar to one another Are they meaningful And what do we do with them after they have passed Addressing these questions renowned psychedelic researcher Rick Strassman M D draws upon his journals and analyses of dozens of episodes of altered consciousness that occurred during or are intimately tied to his life between birth and young adulthood Just as significant as the ecstatic blissful experiences are the uncensored and at times painfully unvarnished narratives of less elevated ones Visually augmenting all these accounts are the striking images of artist Merrilee Challiss Understanding and applying the meaning and message of any altered state its integration first requires a clear eyed recollection of the actual experience in all its aspects neither pushing away the ugly nor grasping after the beautiful This book provides a profound example of how one might go about accomplishing this daunting task *What is Reality?* Ervin Laszlo, 2016-10-04 Ervin Laszlo's tour de force What is Reality is the product of a half century of deep contemplation and cutting edge scholarship Addressing many of the paradoxes that have confounded modern science over the years it offers nothing less than a new paradigm of reality one in which the cosmos is a seamless whole informed by a single coherent consciousness manifest in us all Bringing together science philosophy and metaphysics Laszlo takes aim at accepted wisdom such as the dichotomies of mind and body spirit and matter being and nonbeing to show how we are all part of an infinite cycle of existence unfolding in spacetime and beyond Augmented by insightful commentary from a dozen scholars and thinkers along with a foreword by Deepak Chopra and an introduction by Stanislov Grof What is Reality offers a fresh and liberating understanding of the meaning and purpose of existence **Seeking the Sacred with Psychoactive Substances** J. entheogens and those who are strongly opposed to any such experimentation altogether The volumes address the history and use of mind altering drugs in medical research and religious practice in the endeavor to expand and heighten spirituality and the sense of the divine providing unbiased coverage of the relevant arguments and controversies regarding the subject matter Chapters include examinations of how psychoactive agents are used to achieve altered states in Judaism Christianity Islam and Buddhism as well as in the rituals of shamanism and other less widely known faiths This highly readable work will appeal to everyone from high school students to seasoned professors in both the secular world and in devoted church groups and religious colleges
