

The Lunchroom Murder

Background

On a Thursday afternoon, a customer named Fannie was shot in a diner. So far, there are 4 main suspects being Eric the store manager and 3 other customers nicknamed A, B, C, and D. Before the culprit left the diner, he left a handprint against the wall.

In conclusion,

from the footprints to the handprint, Customer C is the culprit of the murder.

The culprit

Using the given information, we believe that customer C killed Fannie.

Eric

Customer A

Customer B

Counterclaim/Rebuttal

Without said, one could argue that it wouldn't make sense for Fannie to be customer A as there weren't footprints in the direction of the body. This is incorrect as the only relevant footprints, I already belong to Eric. While was inspecting the floor we learned a possibility that long that the floor was most likely spilled since the water wasn't evenly distributed. This leaves Fannie being walking down the street before the bullet was spilled. Which justifies on why Customer A was Fannie.
