Light Years Gary Kinder, 1987 An account of a Swiss farmer's experiences with UFO encounters beginning in 1975

Light Years Gary Kinder, 1987 *Light Years* Outlet, Outlet Book Company Staff, Random House Value Publishing Staff, 1989-11-21 Before and After Roswell David A. Clary, 2001-01-22 The flying saucer has been the most vivid and persistent image in American life of the last half century It has also generated more controversy and rancor than anything else that might be characterized as a fantasy It is malleable suiting a wide variety of beliefs and outlooks touching nearly every public concern It arrived as a mysterious threat from above a metaphor for The Bomb It transformed swiftly into a hope from above promising to save us from ourselves Renamed UFO it became a symbol for those who distrusted the government Along its way through the postwar skies it acquired a cargo that included every species of hoax craziness lunacy and even sexual fantasy along with a fair amount of scientific and political baggage The flying saucer myth says much about how Americans react to the unexpected Before and After Roswell The Flying Saucer in America 1947 1999 places the flying saucer idea in the context of history politics entertainment and science to arrive at an explanation of what it is all about and how it got that way Because the Roswell incident the story that a flying saucer crashed near Roswell New Mexico in 1947 and that the government has hidden the truth about it ever since has dominated the subject recently the book is anchored around that particular story while demonstrating that the flying saucer did exist before and after Roswell It corrects some misconceptions including one that holds that because a majority of people say they believe in UFOs they therefore believe in a conspiracy to cover up the truth about them After detailing what actually happened in Roswell in 1947 the book takes up the birth of the flying saucer earlier that year underscoring the fact that the name originally denoted its movement not its shape The text then examines the Air Forces and CIAs responses to the phenomenon and the rise of competing bands of ufologists true believers and skeptics to dominate debate over it The book also addresses Cold War contributions to the UFO issue and the role of Hollywood in providing the images that defined it Along the way it describes the crashed saucer tradition the contactees abductions men in black the Bermuda Triangle ancient astronauts cattle mutilations the little gray alien SETIs Drake Equation sex and the flying saucer and the rise of a new ufology emanating from the conspiracy culture growing out of the Kennedy assassination mythology and the Watergate scandal Part Two of Before and After Roswell begins with the invention of the incident in 1980 then traces the history of the flying saucer idea to the end of the century Important here are the submersion of the saucer into the larger anti government conspiracy tradition of that period and the increasing domination of the subject by television including Area 51 a myth invented on a TV show and the combined influence of reality based cable documentaries and the amazingly popular series The X Files Also addressed are such things as crop circles the MAJIC hoax the face on Mars UFO conspiracy fiction and the explosion of the abduction belief A chapter on The Battle of Roswell traces the evolution of that controversy through a succession of books by ufologists in the end it broke down into

disputed orthodoxies and feuds over who had the real crash site to charge admission to When boosters tried to turn Roswell into a tourist attraction their quarrels and mercenary outlook alienated the town and made the annual UFO Encounter a flop The book concludes that the flying saucer is not a thing but an idea and one that will overcome the burden of *Close Encounters with Aliens* Janna Silverstein,2001-12-15 Traces the many accounts of alien abductions including both obvious hoaxes and cases that are not easily explained **A History of the Apocalypse** Catalin Negru,2023-01-20 Religion For thousands of years this thing has dictated which people should live and which people should die what shape our buildings should have or what colors our garments should contain what food people should eat or what words people should speak If religion is the opium of the masses then beliefs about the end of the world are like overdoses People touched by such beliefs no longer rely on a hidden personal and intimate god contemplated upon from the safe distance of the beating human heart They live with the promise of divine intervention at a grand scale on the current coordinates of space and time This can be an exceptional motivator and a game changer in terms of civil obedience both at an individual and collective level In the name of an immediate and palpable deity people can commit shocking cruelties However such belief can also account for some of the most exceptional social developments in human history **Cosmological Ice Ages** Henry Kroll,2009-08-19 I plotted our suns course through space to discover that our sun was born in the constellation Orion After the planets were formed Earth was covered with a five mile thick coating of ice one billion years We eventually drifted near the Sirius multiple star system and little Sirius B 1 5 solar masses grabbed hold of our sun putting it in orbit around Sirius A During the rein of the dinosaurs the atmospheric pressure was around 30 pounds per square inch Now it is 14 5 pounds per square inch Before our sun was captured by the Sirius system earth had an atmosphere of 750 pounds per square inch Such an atmosphere extended 2 500 miles above the planet There was no way sunlight could thaw out mile deep ice over the oceans It took the power of a white dwarf to get life started Our sun does not have enough power to keep us out of the ice ages otherwise we wouldnt have them **Cosmological Ice Ages Solved the greatest mysteries of all time** Where was our sun born What took Earth out of a billion year ice age What made all the coal oil and limestone How did Earth get a 20 8% oxygen atmosphere Where did the energy come from to make all the coal oil and limestone Who what when and why was the moon brought into orbit around Earth By Henry Kroll 384 pages 8 5 by 11 quality trade paperback soft cover Catalog 08 0164 ISBN 1 4251 7062 5 US 31 35 C 31 35 EUR21 42 16 19 About the Book I plotted our suns course through space to discover that our sun was born in the constellation Orion After the planets were formed Earth was covered with a five mile thick coating of ice one billion years with an atmospheric pressure of over 750 pounds per square inch Sunlight could not penetrate such an atmosphere extending 2 500 miles above the planet We eventually drifted near the Sirius multiple star system Little Sirius B 1 5 solar masses grabbed hold of our sun putting it in orbit around Sirius A Earth has lost 98% of its atmosphere AKA radiation shield Our sun does not have enough power to keep us out of the ice ages The additional light and heat from Sirius star system that melted the ice caps and got life
