John Agard

Liliade Gillian Cross:

The Iliad Gillian Cross, 2018-11 Gillian Cross's brilliant retelling and Neil Packer's glorious illustrations bring to life Homer's Iliad one of the greatest stories ever told. The team behind *The Odyssey* 2012 now tell the story of the Trojan War. Cross's vivid adaptation begins with a beauty contest: the prize a golden apple. In return for securing her victory, the goddess Aphrodite helps Prince Paris abduct Helen, wife to the king of Sparta. Enraged, the king and his Greek allies wage war on the Trojans. Nine years later, the fighting still rages on, but the Greeks are beginning to quarrel among themselves. Achilles and Agamemnon's petty argument has dire consequences for everyone caught in the crossfire. Neil Packer's pictures capture the beauty and remoteness of the setting and bring a profound humanity to one of the finest literary achievements of Greek civilization.

The Iliad/The Odyssey Boxed Set Gillian Cross, 2017-10-10 This boxed set of Homer's epics is retold by Gillian Cross and illustrated by Neil Packer. These are the stories of Odysseus, Achilles, and Hector depicting their actions and those of the gods they invoke. From the raging battles outside the walls of Troy to the strangely surreal ten years it takes Odysseus to journey home, these bold re-envisionings of Homer's stories are told with simplicity and style.

The Odyssey Gillian Cross, Neil Packer, 2012-09-11 Traces Odysseus' ten-year voyage home after the Trojan War, a journey marked by a man-eating Cyclops, deadly Sirens, the fury of the sea god Poseidon, and Odysseus' faithful wife's efforts to rebuff greedy suitors.

Homer's Iliad and Odyssey, 2018-04 Book: My Autobiography John Agard, 2015-10-06 Books contain countless tales, but what if Book told its own story? From clay tablets to e-readers, here is a quirky, kid-friendly look at the book. Books are one of humankind's greatest forms of expression, and now Book, in a witty, idiosyncratic voice, tells us the inside story. A wonderfully eccentric character with strong opinions and a poetic turn of phrase, Book tells of a journey from papyrus scrolls to medieval manuscripts to printed paper and beyond, pondering along the way many bookish things, including the evolution of the alphabet, the library known to Egyptians as the healing place of the soul, and even book burning. With bold black and white illustrations by Neil Packer, *Book* is a captivating work of nonfiction by one of England's leading poets.

Connecting the Dots in World History, A Teacher's Literacy-Based Curriculum

Chris Edwards,2015-10-16 In his previously written articles and books Chris Edwards has argued that teaching should be considered a field that is separate from both the field of education and from the content area fields Teaching is a field which synthesizes content and method for classroom application All of the other major intellectual fields have a canon of works which practitioners can learn from and add to but teaching does not The Connecting the Dots in World History A Teacher s Literacy Based Curriculum series changes this by showing how effective a teacher generated curriculum can be These books can inspire other teachers to create their own curricula and inspire a change in the way that the public views teachers and teaching

Forward with Classics Arlene Holmes-Henderson,Steven Hunt,Mai Musié,2018-08-09 Despite their removal from England s National Curriculum in 1988 and claims of elitism Latin and Greek are increasingly re entering the mainstream educational arena Since 2012 there have been more students in state maintained schools in England studying classical subjects than in independent schools and the number of schools offering Classics continues to rise in the state maintained sector The teaching and learning of Latin and Greek is not however confined to the classroom community based learning for adults and children is facilitated in newly established regional Classics hubs in evenings and at weekends in universities as part of outreach and even in parks and in prisons This book investigates the motivations of teachers and learners behind the rise of Classics in the classroom and in communities and explores ways in which knowledge of classical languages is considered valuable for diverse learners in the 21st century The role of classical languages within the English educational policy landscape is examined as new possibilities exist for introducing Latin and Greek into school curricula The state of Classics education internationally is also investigated with case studies presenting the status quo in policy and practice from Australasia North America the rest of Europe and worldwide The priorities for the future of Classics education in these diverse locations are compared and contrasted by the editors who conjecture what strategies are conducive to success
