Discourse on the State of the Jews Simone Luzzatto, 2019-07-08 In 1638 a small book of no more than 92 pages in octavo was published appresso Gioanne Calleoni under the title Discourse on the State of the Jews and in particular those dwelling in the illustrious city of Venice It was dedicated to the Doge of Venice and his counsellors who are labelled lovers of Truth The author of the book was a certain Simone Sim a Luzzatto a native of Venice where he lived and died serving as rabbi for over fifty years during the course of the seventeenth century Luzzatto s political thesis is simple and at the same time temerarious if not revolutionary Venice can put an end to its political decline he argues by offering the Jews a monopoly on overseas commercial activity This plan is highly recommendable because the Jews are wellsuited for trade much more so than others such as foreigners for example The rabbi opens his argument by recalling that trade and usury are the only occupations permitted to Jews Within the confines of their historical situation the Venetian Jews became particularly skilled at trade with partners from the Eastern Mediterranean countries Luzzatto s argument is that this talent could be put at the service of the Venetian government in order to maintain or more accurately recover its political importance as an intermediary between East and West He was the first to define the role of the Jews on the basis of their economic and social functions disregarding the classic categorisation of Judaism s alleged privileged religious status in world history Nonetheless going beyond the socio economic arguments of the book it is essential to point out Luzzatto s resort to sceptical strategies in order to plead in defence of the Venetian Jews It is precisely his philosophical and political scepticism that makes Luzzatto s texts so unique This edition aims to grant access to his works and thought to English speaking readers and scholars By approaching his texts from this point of view
