Computational Vision and Bio Inspired Computing D. Jude Hemanth, S. Smys, 2018-02-19 This is the proceedings of the International Conference On Computational Vision and Bio Inspired Computing ICCVBIC 2017 held at RVS Technical Campus September 21-22, 2017. It includes papers on state of the art innovations in bio inspired computing applications where new algorithms and results are produced and described. Additionally, this volume addresses evolutionary computation paradigms, artificial neural networks, and biocomputing. It focuses mainly on research based on visual interference on the basis of biological images. Computation of data sources also plays a major role in routine day to day life for the purposes such as video transmission, wireless applications, fingerprint recognition, and processing big data intelligence automation human centric recognition systems. With the advantage of processing bio inspired computations, a variety of computational paradigms can be processed. Finally, this book also treats the formation of neural networks by enabling local connectivity within it with the aid of vision sensing elements. The work also provides potential directions for future research.
