First Series, St. Chrysostom Philip Schaff, 2007-06-01 Nuclear Reactions Alvin M. Weinberg, 1992-11-18 Blurb Contents
Marvelous reading with few problems of the interaction between science technology and society left untouched One need not
always agree but one cannot come away without a better education I found the parts on scientific administration and on the
interaction of science and society excellent and provocative reading and the parts on energy and nuclear energy very much
to the point American Journal of Physics Alvin Weinberg explores through these collected essays the ever troublesome
relationship between science technology and society The title is taken from Weinberg s assertion that most of the issues
arising at the intersection of science and society depend upon answers to questions that lie outside the power of science
issues that are trans scientific Weinberg who during World War II helped develop the first nuclear reactors has much to say
on the current role of nuclear power and the possibilities for the future Other topics include strategic defenses and arms
control the role of the science administrator and the way in which time energy and resources are allocated to public
problems In this remarkable record of a half century of public oriented work Weinberg lays the foundation for a philosophy of
scientific administration parallel to the more established philosophy of science *The Truth Seeker* ,1919 The American
