Heidegger Reframed Barbara Bolt, 2010-12-02 It is frequently commented that Heidegger writes impenetrable texts that are difficult to read and comprehend but he also as Barbara Bolt demonstrates in this clear original guide to his oeuvre provides an artists guide to the world Heidegger Reframed grounds Heidegger's writings in the critical questions confronting contemporary visual artists and students of art Barbara Bolt takes the most relevant of his texts including his most famous work Being and Time and sets out ways of thinking about art in a post medium digital technocratic and post human age She does so through the frame of works by international artists including Sophie Calle Anish Kapoor and Anselm Kiefer A glossary of terms completes this full and clear companion to Heidegger

Adorno Reframed Geoff Boucher, 2012-10-15 Dismissed as a miserable elitist who condemned popular culture in the name of high art Theodor W Adorno 1903-1969 is one of the most

provocative and important yet least understood of contemporary thinkers This book challenges this popular image and re examines Adorno as a utopian philosopher who believed authentic art could save the world Adorno Reframed is not only a comprehensive introduction to the reader coming to Adorno for the first time but also an important re evaluation of this founder of the Frankfurt School Using a wealth of concrete illustrations from popular culture Geoffrey Boucher recasts Adorno as a revolutionary whose subversive irony and profoundly historical aesthetics defended the integrity of the individual against social totality *Bakhtin Reframed* Deborah J. Haynes, 2013-03-18 Legendary philosopher and literary critic Mikhail Bakhtin 1895 1975 developed concepts which are bywords within poststructuralist and new historicist literary criticism and philosophy yet have been under utilised by artists art historians and art critics Deborah Haynes aims to adapt Bakhtin s concepts particularly those developed in his later works to an analysis of visual culture and art practices addressing the integral relationship of art with life the artist as creator reception and the audience and context intertextuality This provides both a new conceptual vocabulary for those engaged in visual culture ideas such as answerability unfinalizability heteroglossia chronotope and the carnivalesque defined in the glossary and a new practical approach to historical analysis of generic breakdown and narrative re emergence in contemporary art Haynes uses Bakhtinian concepts to interpret a range of art from religious icons to post Impressionist painters and Russian modernists to demonstrate how the application of his thought to visual culture can generate significant new insights Rehabilitating some of Bakhtin s neglected ideas and reframing him as a philosopher of aesthetics Bakhtin Reframed will be essential reading for the huge community of Bakhtin scholars as well as students and practitioners of visual culture **Deleuze Reframed** Damian Sutton, David Martin-Jones, 2013-02-05 Are your students baffled by Baudrillard Dazed by Deleuze Confused by Kristeva Other beginners guides can feel as impenetrable as the original texts to students who think in images Contemporary Thinkers Reframed instead uses the language of the arts to explore the usefulness in practice of complex ideas Short contemporary and accessible these lively books utilise actual examples of artworks films television shows works of architecture fashion and even computer games to explain and explore the work of the most commonly taught thinkers Conceived specifically for the visually minded the series will prove invaluable to students right across the visual arts Deleuze disdains easy answers Yet easy answers to Deleuze are what students need Without reducing Deleuze s complex body of thought to simplistic solutions this very contemporary guide leads the reader into the world of Deleuze s spiralling thought through concrete examples from art film TV and even computer games From *Eternal Sunshine of the Spotless Mind* and *The Cell* to *Pac Man* and *Doom* and from the work of Matthew Barney and Helen Chadwick to *Lost* and *Doctor Who* this easily digestible introduction looks at the key ideas promoted by Deleuze both in his own work and in his notoriously difficult collaborations with Felix Guattari to make them both fresh and relevant to the visual arts today Lacan Reframed Steven Z. Aesthetic Hybridity in Mughal

Painting, 1526-1658 Valerie Gonzalez, 2016-03-03 The first specialized critical aesthetic study to be published on the concept of hybridity in early Mughal painting this book investigates the workings of the diverse creative forces that led to the formation of a unique Mughal pictorial language Mughal pictoriality distinguishes itself from the Persianate models through the rationalization of the picture's conceptual structure and other visual modes of expression involving the aesthetic concept of mimesis If the stylistic and iconographic results of this transformational process have been well identified and evidenced their hermeneutic interpretation greatly suffers from the neglect of a methodologically updated investigation of the images conceptual underpinning Valerie Gonzalez addresses this lacuna by exploring the operations of cross fertilization at the level of imagistic conceptualization resulting from the multifaceted encounter between the local legacy of Indo Persianate book art the freshly imported Persian models to Mughal India after 1555 and the influx of European art at the Mughal court in the sixteenth and seventeenth centuries The author's close examination of the visibility metaphysical order and aesthetic language of Mughal imagery and portraiture sheds new light on this particular aspect of its aesthetic hybridity which is usually approached monolithically as a historical phenomenon of cross cultural interaction That approach fails to consider specific parameters and features inherent to the artistic practice such as the differences between doxis and praxis

conceptualization and realization intentionality and what lies beyond it By studying the distinct phases and principles of hybridization between the variegated pictorial sources at work in the Mughal creative process at the successive levels of the project intention the practice realization and the result product the author deciphers the modalities of appropriation and manipulation of the heterogeneous elements Her unique The Meeting of Aesthetics and Ethics in the Academy Kate MacNeill, Barbara Bolt, 2019-09-17 The Meeting of Aesthetics and Ethics in the Academy provides a deep understanding of the nuances of ethics in the creative environment and contributes to the critical exploration of the nature of research ethics in higher education Written by world renown academics with a wealth of experience in this field this volume explores ethical challenges and responses across a range of creative practices and disciplines including design documentary film making journalism socially engaged arts and the visual arts It addresses the complex negotiations that creative practice researchers in higher education undertake to ensure that the ethical compliance required does not undermine the research integrity and artistic aspirations By presenting carefully considered challenges to accepted models of research this book illustrates critical analysis through a variety of case studies and anecdotal examples that provide an insight into improved ethics practices and policies in higher education This book is perfect for academics ethics administrators higher degree research candidates and supervisors looking to engage further in creative practice research and wanting to explore and understand its ethical oversight The Emotional Life of Postmodern Film Pansy Duncan, 2015-11-19 Emotion and Postmodernism is it possible to imagine an odder couple stranger bedfellows less bad company The Emotional Life of Postmodern Film brings this unlikely pair into sustained dialogue arguing that the interdisciplinary body of scholarship currently emerging under the rubric of affect theory may be unexpectedly enriched by an encounter with the field that has become its critical other Across a series of radical re appraisals of canonical postmodern texts from Fredric Jameson s Postmodernism to David Cronenberg s Crash Duncan shows that the same postmodern archive that has proven resistant to strongly subject based and object oriented emotions like anger and sadness proves all too congenial to a series of idiosyncratic borderline emotions from knowingness fascination and bewilderment to boredom and euphoria The analysis of these emotions in turn promises to shake up scholarly consensus on two key counts On the one hand it will restructure our sense of the place and role of emotion in a critical enterprise that has long cast it as the stodgy subjective sister of a supposedly more critically interesting and politically productive affect On the other it will transform our perception of postmodernism as a now historical aesthetic and theoretical moment teaching us to acknowledge more explicitly and to name more clearly the emotional life that energizes it **Adorno Reframed** Geoff Boucher, 2012-10-15 Dismissed as a miserable elitist who condemned popular culture in the name of high art Theodor W Adorno 1903 1969 is one of the most provocative and important yet least understood of contemporary thinkers This book challenges this popular image and re examines Adorno as a utopian philosopher who believed authentic art could save the world Adorno Reframed is not only a comprehensive introduction to the reader coming to Adorno for the first time
