Across the Waters of Remembrance Herbert E. Hudson IV, 2020-06-11 This book is the capstone of the ministry of Herbert E Hudson IV from 1959 to 2020 literally a span of six decades The sermons are grouped into three periods Sermons given in Utica tend to be more academic and are termed The Dawning of Awareness Sermons given at Central Square a time of personal growth and change are considered as A Soul in Transition Finally sermons in Key Largo reflect more certainty and trust in life and are referred to as A Seasoned Spirit The balance of this handbook includes readings prayers invocations benedictions and special services for weddings christenings and memorials

Great War Modernism Nanette Norris, 2015-12-16 New Modernist Studies while reviving and revitalizing modernist studies through lively scholarly debate about historicity aesthetics politics and genres is struggling with important questions concerning the delineation that makes discussion fruitful and possible This volume aims to explore and clarify the position of the so called core of literary modernism in its seminal engagement with the Great War In studying the years of the Great War we find ourselves once more studying the giants about whom there is so much more to say as well as adding hitherto marginalized writers and a few visual artists to the canon The contention here is that these war years were seminal to the development of a distinguishable literary practice which is called modernism but perhaps could be further delineated as Great War modernism a practice whose aesthetic merits can be addressed through formal analysis This collection of essays offers new insight into canonical British American European modernism of the Great War period using the critical tools of contemporary expansionist modernist studies By focusing on war and on the experience of the soldier and of those dealing with issues of war and survival these studies link the unique forms of expression found in modernism with the fragmented violent and traumatic experience of the time

This is a study of the collaborative creation behind literary works that are usually considered to be written by a single author Although most theories of interpretation and editing depend on a concept of single authorship many works are actually developed by more than one author Stillinger examines case histories from Keats Wordsworth Coleridge Mill and T S Eliot as well as from American fiction plays and films demonstrating that multiple authorship is a widespread phenomenon He shows that the reality of how an author produces a work is often more complex than is expressed in the romantic notion of the author as solitary genius The cumulative evidence revealed in this engaging study indicates that collaboration deserves to be included in any account of authorial achievement
