Hallow Point A Mick Oberon Job :

Hallow Point Ari Marmell,2025-06-02 The hard boiled non stop patter packed fantasy noir series continues as PI Mick Oberon is caught in treasure hunt he can't afford to lose In 1930s Chicago being a private detective can get you bumped off as easy as breathing But Mick Oberon isn't your average shamus He's runaway fae royalty from the Otherworld who hung up his shingle packs a wand instead of a heater loves warm milk and has a serious iron allergy Hey a nigh immortal guy's gotta make a living right That's why Mick agrees to help the cops when someone breaks into the Field Museum Strange thing is they didn't steal anything In fact they added something Something Mick really doesn't want in his town the Spear of Lugh which grants invincibility in battle to whoever wields it The problem is some other mug steals it just as fast as it appeared With the spear in play a whole slew of very heavy hitters from both worlds are coming to the Windy City to claim it as their own And that means trouble like Mick has never seen before and is unlikely to see again Because you tend not to see anything when you're stone dead Among the best urban fantasy novels I have read *Rising Shadow* *In Truth and Claw* Ari Marmell,2025-06-04 A city in fear Humanity under threat Only otherworldly private eye Mick Oberon can crack the catastrophic case as the fantasy noir series continues Chicago in the 1930s The clouds don't have any silver lining and if they did some mug would have stolen the silver This is Mick Oberon's city And when you're runaway non human royalty with a shady past it's just as vicious violent and lowdown as life back home in the fae realm of Elphame Unfortunately Chicago's about to become the front runner in that bloody contest Because everything seems to be going sideways down the drain and straight to hell all at once People are dying with very particular puncture marks on their necks and missing several pints of the red stuff gee whatever could that mean Not to mention that Mick's nemesis the vengeful maniacal good witch Orsola might not be as dead as he'd hoped Then Mick's not quite nemesis the beautiful backstabbing succubus Ramona Webb paints her way back into his picture for reasons unknown And that's when a vampire shows up in Mick's office asking for his help in stopping an impending nightmarish bloodbath Some days it just doesn't pay for a paranormal PI to pick up his wand Fans of Jim Butcher's Dresden Files series will find plenty to like Publishers Weekly **Hot Lead, Cold Iron** Ari Marmell,2025-06-02 First in the fantasy noir series featuring Mick Oberon a hard boiled private eye who goes where the case leads him no matter which world it is Chicago 1932 Crime and corruption rule From the gutter to the Gold Coast the city has more dirty dealings than a sticky fingered card sharp A man would have to be crazy to go up against that kind of muscle But PI Mick Oberon is no man He's a self exiled fae prince who left the Otherworld for reasons he'd rather not go into In the mortal realm he's a tough talking hard hitting gumshoe packing a quick wit and a large caliber magic wand And boyo is he ever gonna need them both Because his newest client is the wife of a heavy duty mob honcho She wants Mick to find her daughter who it turns out was pilfered and replaced with a changeling sixteen years ago And she wants the investigation kept on the hush hush Which is strange because suddenly it seems like everyone and their uncle already has their eyes on

Mick's prize From rival gangsters to the lowest of lowlives to their even more lethal counterparts in the Otherworld a lot of people and non people want Mick out of the picture before he solves the mystery Unfortunately for all of them Mick Oberon doesn't know the meaning of the word quit But with this case he might want to break out the dictionary before he gets killed Praise for Hot Lead Cold Iron In this gripping fantastical investigation Marmell creates an engaging world and an unlikely hero The potent mix of gangsters magic Fae politics and a strega on the warpath makes for a ride that never touches the brakes Marmell expertly maximizes the thrills leaving the reader with a lingering desire for a magic wand and a glass of warm milk Publishers Weekly Starred Review

Remnants, Book One: Dust Ari Marmell, 2022-11-08 For Flight Engineer Cynthia Han and her fellow astronauts aboard the International Space Station Expedition 81 has proved as mundane as space travel ever gets Yes this would be Cynthia's final NASA mission for reasons she's so far kept from the rest of the crew and yes the latest billionaire space tourist has managed to irritate everyone on board Still none of them could have asked for a smoother experience Until the morning they wake up to silence All communication with Earth gone From half a dozen different agencies with multiple installations and redundancies across the globe there is simply nothing And through the viewports of the ISS only the thick veil of churning lightning veined dust to suggest the Earth remains at all Now without ground control without the proper telemetries or calculations or even reliable visuals Cynthia and the rest of Expedition 81 must make their way home It will be the most fraught and the most frightening task of their lives But it will be nothing compared to the world that now awaits them beyond the dust

Remnants, Book Two: Ashes Ari Marmell, 2023-03-28 The world has ended Along with other scattered survivors astronaut Cynthia Han and the remainder of ISS Expedition 81 have finally learned what happened to the people they'd left behind and it's worse than any of them could have imagined But even if life as Cynthia knew it is over her struggles most certainly are not Joshua Lamb granted strange and inhuman abilities even as civilization died around him directs his zealots to scoop up every pocket of survivors to offer them the simplest choice Join or die The nightmarish Crooked Men still hunt the darkened hollowed cityscapes And towering over it all the mind breaking obelisks with their unreadable alien message At stake are not just the lives of Cynthia and her companions but the last flickering embers of the human race To succeed not only must she learn the true purpose of the obelisks she must come to understand that the worst of humanity's instincts and sins were never limited to us alone

The Iron Devils Ari Marmell, 2022-01-19 Born into the horrors of a post Pacification world Magdalena Suarez never expected much of a life A few decades at best in the slave camps until some injury or illness rendered her upkeep no longer efficient for her machine overseers and their rulers the all seeing Eyes Day after day of drudgery and servitude and on occasion danger as she and her fellow survivors went about their assigned tasks Except now something has changed Something anomalous has arisen from a lengthy slumber something even the machines cannot comprehend Something they with their artificial cameras and sensors cannot even see Something with impossible powers impossible strength Something ancient that hunts only in the dark of

night Magdalena is about to discover a truth she never dared dream possible Things yet exist in the world that may be more powerful even than the machines For the first time in her life she might have reason to hope for something more But is this anomaly truly a potential escape or does it promise merely a new and even more horrific sort of servitude In the ruins of the world that was Magdalena and the last remnants of humanity will find themselves caught in an impossible war between the mechanical and the mystical between the unliving and the undead **Talking Book Topics** ,2016 **Dead to Rites** Ari Marmell,2016-08-16 Mick Oberon may look like just another 1930s private detective but beneath the fedora and the overcoat he s got pointy ears and he s packing a wand The third title in this popular series
