**Parenting Across Cultures** Helaine Selin, 2022-11-22 This second edition of Helaine Selin s successful Parenting Across Cultures comes at a time where interest in parenting has increased across the world as a result of the COVID pandemic as parents and children were put into different and often challenging conditions This new edition like the first contains chapters from countries in Asia Africa and South America as well as from indigenous cultures of several Western countries The chapters were revised to include new research in the post pandemic world They show that there is a strong connection between culture and parenting there are differences in affection and distance harshness and repression and acceptance and criticism Some parents insist on obedience others are concerned with individual development This clearly differs from parent to parent but there is just as clearly a connection to culture which these chapters explore In addition to the chapters on individual countries the second edition includes a section on the pandemic as well as new research on parenting and technology gender religion adoption step parenting divorce single parents racism gay parents disabilities autism eating

habits transgender attachment migration bullying and refugee resettlement      *Adolescent Development and School Achievement in Urban Communities* Gary Creasey, Patricia A Jarvis, 2012-12-12 This timely volume explores essential themes issues and challenges related to adolescents lives and learning in underserved urban areas Distinguished scholars provide theoretically grounded multidisciplinary perspectives on contexts and forces that influence adolescent development and achievement The emphasis is on what is positive and effective what can make a real difference in the lives and life chances for urban youths rather than deficits and negative dysfunction Going beyond solely traditional psychological theories a strong conceptual framework addressing four domains for understanding adolescent development undergirds the volume developmental continuities from childhood primary changes biological cognitive social contexts of development adolescent outcomes A major federal government initiative is the development of programs to support underserved urban areas Directly relevant to this initiative this volume contributes significantly to gaining a realistic understanding of the contexts and institutions within which urban youths live and learn      Surfing the Past Olivier Nyirubugara, 2012 This books discusses one of the most frequently discussed subjects in history education during the last two decades namely how secondary school pupils use the World Wide Web for their learning activities Based on two case studies in two Dutch schools the book shows some ways in which the use of the Web has changed history education in at least three respects first the findings of the two case studies show that the Web has a huge potential to turn the history class previously described as boring and too abstract into a livelier and more attractive environment where concepts events phenomena and processes of the past almost always have textual and or audio visual representations second strong indications were observed showing that the Web fosters historical understanding not only by triggering thinking processes that take pupils beyond the shown contents but also by prompting them to evaluate sources and sample relevant fragments for their assignments third the Web has brought into history education sources that were previously excluded including those described as unconventional This book shows among other things that convergence is underway on both the user side since pupils use both conventional and unconventional online sources and the content production side where heritage institutions are increasingly getting involved in unconventional platforms like Wikipedia The latter emerged from the two case studies as the most popular source of historical information while the websites of heritage institutions tended to appear at the bottom of the list of references Unlike personal sites which also scored better heritage sites face some obstacles including the still dominant desire to preserve institutions identity and uniqueness conservatism which often prevents the redefinition of collection management tasks and the tax payers dilemma For that reason collections are not hyperlinked and therefore remain invisible and not easy to find online      Youth Studies James Côté, 2017-09-16 The burgeoning field of youth studies encompasses multiple viewpoints presenting a confusing picture to novices and experts alike This insightful text goes to the heart of the fundamental issues and debates that characterize this developing field giving readers a clearer understanding of its current

progress and future prospects James C t s lively debate focused overview of the underlying paradigms and theories in youth studies drawn from the overlapping disciplines of sociology psychology and cultural studies functions both as an introduction to the area and as an exercise in critical thinking putting its readers on the cutting edge of the field The chapters move from identifying the key threshold meta concepts that influence research to showing readers how to critically evaluate key debates in areas that are central to students lives including education work family technologies youth culture identity and politics Youth Studies is the ideal companion to youth related degree programmes and to youth modules in sociology social work social policy psychology and other related disciplines

**Children and Mobile Phones** Barrie Gunter,2019-05-08 This book examines research and relevant theory on the role of mobile phones in the lives of children and young people how these technologies are used for different applications the effects that mobile phones have on young people and the challenges of regulating and controlling the technology and its use

**After-School Centers and Youth Development** Barton J. Hirsch,Nancy L. Deutsch,David L. DuBois,2011-09-12 This book examines after school programs in light of their explosive growth in recent years In the rush to mount programs there is a danger of promoting weak ones of little value and failing to implement strong ones adequately But what is quality and how can it be achieved This book presents findings from an intensive study of three after school centers that differed dramatically in quality Drawing from 233 site visits the authors examine how and why young people thrive in good programs and suffer in weak ones The book features engaging in depth case studies of each of the three centers and of six youths two from each center Written in a highly accessible style for academics youth workers after school program leaders and policy makers the study breaks new ground in highlighting the importance of factors such as collective mentoring synergies among different programs and activities and organizational culture and practices
