Informatics in Higher Education Fred Mulder,2016-01-09 This book addresses two main themes The first is the discipline of informatics Two major questions will be discussed how can we obtain and keep track of a systematic and objective overview of the vast landscape in higher informatics education both nationally and internationally and would it be useful to rationalize and redesign the informatics curricula leading to less fragmentation and more communality The second theme is the relation between informatics and other disciplines with the following main questions what informatics do we need to offer a coherent curriculum which suits the needs of the actual information society with respect to specific disciplines what is relevant in informatics and CIT to provide to others and what informatics concepts methods and techniques form the hard core needed in every other discipline

The origin, function and diagnostic potential of extracellular microRNA in human body fluids Andrey Turchinovich,William Cho,2014-07-28 Short non coding RNA molecules microRNAs miRNAs post transcriptionally regulate gene expression in living cells In recent years miRNAs have been found in a wide spectrum of mammalian body fluids including blood plasma saliva urine milk seminal plasma tears and amniotic fluid as extracellular circulating nuclease resistant entities The changes in miRNA spectra observed in certain fluids correlated with various pathological conditions suggesting that extracellular miRNAs can serve as informative biomarkers for certain diseases including cancer However the mechanism of generation and a biological role of

extracellular miRNAs remain unclear The current theories regarding extracellular miRNA origin and function suggest that these miRNAs can be either non specific by products of cellular activity and cell death or specifically released cell cell signaling messengers The goal of this Research Topic is to bring together up to date knowledge about the extracellular miRNA and its role in disease diagnostics and possibly inter cellular communication
