Innovation Policy in the Knowledge-Based Economy M.P. Feldman, Albert N. Link, 2012-12-06
Scholars in the science and technology field have not collectively questioned much less proposed an agenda for policy makers Now is an appropriate time for such an undertaking First there is a growing belief that the U S national research and development system like that of many industrial nations is changing due to global competitive pressures and advancements in information technology and electronic commerce Second industry s R D relationship with the academic research community is changing not only because of the global competition but also because of alterations in the level of government support of fundamental research As a result policy makers will need to rethink their approaches to science and technology issues This volume is a collection of essays by scholars about innovative policy in the knowledge based economy By knowledge based economy we mean one for which economic growth is based on the creation distribution and use of technology As such innovation policy in such an economy must enhance the creation distribution and use of knowledge that leads to the creation distribution and use of technology This volume considers elements of an innovation policy innovation policy and academic research innovation policy in electronic commerce and innovation policy and globalization issues

New Business Models for the Knowledge Economy Wendy Jansen, Wilchard Steenbakkens, Hans Jagers, 2017-11-28
Few concepts in business today are as widely discussed as business models Research shows that business models are a better predictor of financial performance than traditional industry classifications The unprecedented potential of the internet interactivity connectivity and speed of communication along with the new generation of IT applications for enabling co operative working and communication gives rise to new business models for organization creation and development It is becoming clear that organizations that manage to incorporate values such as sense of community knowledge sharing and enlightened self interest into their business model will perform better in the network economy than organizations whose

business models are based solely on economic rationalism This book features a business model that presents three new types of business model in which customization innovation and authenticity play an important role as solutions to the new requirements of business The authors provide an explanation of their new models and explain how they can be used by both profit and not for profit organizations to design an integrated strategy for organizational development governance IT and business processes The result is a rigorous but very accessible guide for anyone interested in organizational development and new business strategy
