## **Inner Mongolia Chinas Provinces In Transition 15:**

**Rural Transition and Transport in China** Pengjun Zhao, Haoyu Hu, 2022-12-05 This book examines the rural transition and transportation in China It covers demographic change settlement transformation and infrastructure development in rural areas as well as changes in transportation expenditures travel behavior and accessibility of basic public services among rural Chinese residents The book contributes to the new body of knowledge from an international perspective in three ways First it explores the changes in travel behavior of rural residents and related factors Second it provides new evidence on the relationship between rural social transformation and transportation infrastructure development Third it discusses the impact of transportation investments on rural poverty reduction The book enhances our understanding of the changes in travel behavior of rural residents In particular the results of the multi source big data analysis will provide new evidence on the link between social transformation and changes in travel behavior in rural China It also helps planners and politicians to develop policies aimed at improving quality of life rural poverty and the efficiency of transportation investments in rural areas The book is of great interest to scholars interested in rural transformation and development sustainable transport regional planning and environmental policy and is relevant to China and other developing countries

**Rural Development in Transitional China** Jacob Eyferth, Peter Ho, Eduard Vermeer, 2004-08-02 This book offers an authoritative and in depth analysis of the social and economic changes that have swept through the Chinese countryside in the last twenty years

*China's Frontier Regions* Doug Smith, Michael E. Clarke, 2016-03-08 China has traditionally viewed her frontier regions Xinjiang Tibet Inner Mongolia and Yunnan as buffer zones Yet their importance as commercial and cosmopolitan hubs intimately involved in the transmission of goods peoples and ideas between China and its west and southwest has meant they are crucial for China's ongoing development The resurgence of China under Deng Xiaoping's policy of reform and opening has therefore led to a focus on integrating these regions into the PRC People's Republic of China This has important implications not only for the frontier regions themselves but also for the neighbouring states with which they have strong cultural religious linguistic and economic ties China's Frontier Regions explores the challenges presented by this integrationist policy both for domestic relations and for diplomatic and foreign policy relations with the countries abutting their frontier regions

**China's Regions in an Era of Globalization** Tim Summers, 2018-06-19 The rise of China has been shaped and driven by its engagement with the global economy during a period of intensified globalization yet China is a continent sized economy and society with substantial diversity across its different regions This means that its engagement with the global economy cannot just be understood at the national level but requires analysis of the differences in participation in the global economy across China's regions This book responds to this challenge by looking at the development of China's regions in this era of globalization It traces the evolution of regional policy in China and its implications in a global context Detailed chapters examine the global trajectory of what is now becoming known as the

Greater Bay Area in southern China the globalization of the inland mega city of Chongqing and the role of China's regions in the globally focused belt and road initiative launched by the Chinese government in late 2013 The book will be of interest to practitioners and scholars engaging with contemporary China's political economy and international relations **Emerging Forest Associations in Yunnan, China** Horst Weyerhaeuser, Shao Wen, Fredrich Kahrl, 2006 **Energy Market and Energy Transition: Dynamics and Prospects** Xunpeng (Roc) Shi, Phoumin Han, Qiang Ji, Farhad Taghizadeh-Hesary, Dayong Zhang, 2021-06-04 *China Rising* David Goodman, Gerald Segal, 2013-07-23 China's dramatic economic growth since the 1970s has seemed inexorable The resulting rise in international profile has provoked a lively argument regarding the fundamental economic and strategic challenges to the rest of the world that China now presents China Rising examines the extent to which that country's future foreign policy stance may be shaped by its own agendas and constrained through interdependence and interaction with the outside world In the process it also questions the extent to which the rest of the world can attempt to shape that future to non Chinese interests with any chance of success Most debates regarding China's future international position tend to be polarised between those advocating containment and those wishing to see Beijing given a much freer hand China Rising provides a refreshing alternative to both *China Deconstructs* David S.G. Goodman, Gerald Segal, 2002-03-11 China has experienced the world's fastest economic growth for over a decade It is likely that within a generation China will have the world's largest economy Yet at the moment when China looks set to regain its former power serious questions have to be asked about the continuing integrity of China The challenges posed by economic reform succession politics and new forces of political liberalism are compounded by boundary uncertainties as China adopts a strategy of greater interdependence with the regional and global economy The writers of this book analyse the factors that might lead to and that might prevent the break up of China They provide key data about economic activity and external connections of the major regional forces Their analysis provides essential reading for those concerned with the prospects for China and the future stability of East Asia **Local Environmental Politics in China** Genia Kostka, 2017-07-05 Knowledge and insight in national environmental governance in China is widespread However increasingly it has been acknowledged that the major problems in guiding the Chinese economy and society towards sustainability are to be found at the local level This book illuminates the fast changing dynamics of local environmental politics in China a topic only marginally addressed in the literature In the course of building up an institutional framework for environmental governance over the last decade local actors have generated a variety of policy innovations and experiments In large measure these are creative responses to two main challenges associated with translating national environmental policies into local realities The first such challenge is a policy implementation gap stemming from the absence of the state capacity necessary to the implementation of environmental measures The second challenge refers to the need for local non state actors to engage in environmental management oftentimes such a participation gap contributes to implementation

failures In recent years we have seen a multitude of initiatives within China at the provincial level and below designed to bridge both gaps Hence the central aim of this book is to assess these experiments and innovations in local environmental politics This book was originally published as a special issue of the Journal of Environmental Policy and Planning *Water Law* Joseph W. Dellapenna, Joyeeta Gupta, 2021-08-31 This volume of the Elgar Encyclopedia of Environmental Law provides thorough and detailed coverage of the changing meanings and roles of water law from the local to the global It examines the rules of ownership rights of use and dispute resolution that address access allocation and protection of water resources Written by leading scholars and practitioners from across the globe this authoritative volume will be a vital resource for all scholars and students of environmental law **Multicultural China** Rongxing Guo, Uradyn E. Bulag, Michael A. Crang, Thomas Heberer, Eui-Gak Hwang, James A Millward, Morris Rossabi, Gerard A. Postiglione, Chih-yu Shih, Nicholas Tapp, Luc Changlei Guo, 2014-07-29 With its easy to use format this book provides a collection of annual data on China's 56 ethnic groups It is a resource book that profiles the demography employment and wages livelihood agriculture industry education science and technology culture sports and public health for each of these ethnic groups This material which is compiled from a variety of sources will be of great value to researchers businesses government agencies and news media In this book data are presented on an ethnic group by ethnic group basis and the ethnic groups are ordered alphabetically from the Achang to the Zhuang Though most of the data are as of 2011 the latest year when our research was conducted we also provide some historical data for a few of indicators This is intended to help readers to conduct time series comparisons and analyses *Regional Economic Development in China* Swee-Hock Saw, John Wong, 2009 This book incorporates a selection of fourteen revised papers presented to the International Conference on China's Regional Economic Development Cooperation Challenges and Opportunities for Singapore organized jointly by the Saw Centre for Financial Studies NUS Business School and the East Asian Institute National University of Singapore in May 2008 The fourteen chapters discuss in considerable detail the recent shift adopted by the Chinese Government towards the regional development of the country in order to achieve a more balanced economy for the whole country The economic challenges and opportunities in the various parts of the region are examined in the context of this new policy The book with contributors from experts in the topics covered will be invaluable to businessmen analysts academics students and policy makers *Green Approach to Alternative Fuel for a Sustainable Future* Maulin P. Shah, 2023-05-14 Green Approach on Alternative Fuel for Sustainable Future addresses the advancement of biological and biochemical technologies in context to alternative fuel synthesis This book emphasizes and discusses the technology involved and development on the status of alternative fuel production and related aspects including biofuel production The potential uses of waste material to turn them into wealth as alternative energy sources also been discussed The extended and detailed content of the book also covers the promising uses of microalgae treatment to produce biofuel By not being limited to the biological aspect the book also discusses and explores the

perspective of green chemistry for energy production By adding policy and commercialization the book provides comprehensive information from lab to field with extensive illustrations case studies summary tables and up to date references Gives an overall overview on general and applied aspects on biofuels Provides scientific methodology for viable sustainable transition strategies for policy makers Outlines green technologies to face the environmental crisis and allow for the transformation into a sustainable future Provides data based information in context to advance and innovative technology Explore possibilities and limitation of expansion and commercialization of biofuels Offers accumulation of innovative approach to promoting sustainable development Includes cutting edge research concepts for biofuels production

*Late Quaternary Climate Change and Human Adaptation in Arid China* D.B. Madsen,F. Chen,X. Gao,2011-09-22 Due to political pressures prior to the 1990s little was known about the nature of human foraging adaptations in the deserts grasslands and mountains of north western China during the last glacial period Even less was known about the transition to agriculture that followed Now open to foreign visitation there is now an increasing understanding of the foraging strategies which led both to the development of millet agriculture and to the utilization of the extreme environments of the Tibetan Plateau This text explores the transition from the foraging societies of the Late Paleolithic to the emergence of settled farming societies and the emergent pastoralism of the middle Neolithic striving to help answer the diverse and numerous questions of this critical transitional period Examines the transition from foraging societies of the Late Paleolithic to the emergence of settled farming societies and the emergent pastoralism of the middle Neolithic Explores explanatory models for the links between climate change and cultural change that may have influenced the development of millet agriculture Reviews the relationship between climate change and population expansions and contradictions during the late Quaternary

*Sustainable Development in Western China* Scott A. Waldron, John William Longworth, Colin G. Brown,2014-05-14 This study provides a guide to analysis of the intricate web of policies institutions that now impact on grassland degradation sustainable development in China s pastoral region It also reveals broader insights into how China grapples with complex ecological livelihood problems as it rapidly modernises develops

**Developing China's West** Yue-man Yeung,Jianfa Shen,2004 From macro and micro perspectives this book provides a panoramic view of China s sprawling western region China s twelve western provinces are examined through several critical thematic dimensions

**A Study of Prehistoric Settlement Patterns in China** Anping Pei,2020-04-07 This book is the first ever monograph on clustering patterns in prehistoric settlements It not only theoretically explains the difference between natural settlement communities and organizational forms for the first time but

also demonstrates the importance of understanding this difference in practical research Based on extensive archaeological data from China and focusing on the evolution of prehistoric settlements and changing social relations the book completely breaks with the globally popular research mode which is based on the assumption that settlement archaeology has nothing to do with prehistoric social organization In terms of research methods the book also abandons the globally popular method of measuring the grade and importance of settlements according to their size and the value of the unearthed objects Instead it focuses on understanding settlements attributes from the combined perspective of the group and individuals On the one hand the book proves that the clustering patterns in prehistoric settlement sites reflect the organizational forms of the time on the other it demonstrates that historical research focusing on the organizational forms of prehistoric societies is closer to the historical reality and of more scientific value The intended readership includes graduates and researchers in the field of archaeology or those who are interested in cultural relics and prehistoric settlements
