Italy And The West Comparative Issues In Romanization:

Italy and the West S. J. Keay, Nicola Terrenato, 2001 Nineteen papers examining varied responses to Romanization and how this affects our view of the development of the Roman Empire The traditional view of Romanization is as the triumph of a superior and more advanced culture over primitive communities brought about by military expansion and resulting in the creation of a uniform political and cultural entity It is only in the last twenty years that the variety of responses that Romanization elicited among the various ethnic groups social classes genders spheres and even within the same person in different conjunctures of his or her life has begun to be appreciated The aim of this collection of papers is to further understanding of Romanization at a formative stage early Roman expansion in Italy There is much evidence for bi directional negotiation between Italian communities and Rome Understanding the motivation of the Italian peoples to become part of a new political entity is crucial to knowing how Roman Italy was kept together for more than half a millennium Seven papers also examine responses to Romanization in other parts of the Empire

The Peoples of Ancient Italy Gary D. Farney, Guy Bradley, 2017-11-20 Although there are many studies of certain individual ancient Italic groups e g the Etruscans Gauls and Latins there is no work that takes a comprehensive view of each of them the famous and the less well known that existed in Iron Age and Roman Italy Moreover many previous studies have focused only on the material evidence for these groups or on what the literary sources have to say about them This handbook is conceived of as a resource for archaeologists historians philologists and other scholars interested in finding out more about Italic groups from the earliest period they are detectable early Iron Age in most instances down to the time when they begin to assimilate into the Roman state in the late Republican or early Imperial period As such it will endeavor to include both archaeological and historical perspectives on each group with contributions from the best known or up and coming archaeologists and historians for these peoples and topics The language of the volume is English but scholars from around the world have contributed to it This volume covers the ancient peoples of Italy more comprehensively in individual chapters and it is also distinct because it has a thematic section

An Imperial Possession David Mattingly, 2008-05-27 Part of the Penguin History of Britain series *An Imperial Possession* is the first major narrative history of Roman Britain for a generation David Mattingly draws on a wealth of new findings and knowledge to cut through the myths and misunderstandings that so commonly surround our beliefs about this period From the rebellious chiefs and druids who led native British resistance to the experiences of the Roman military leaders in this remote dangerous outpost of Europe this book explores the reality of life in occupied Britain within the context of the shifting fortunes of the Roman Empire

The Early Roman Expansion into Italy Nicola Terrenato, 2019-05-02 Argues that Roman expansion in Italy was accomplished more by means of negotiation among local elites than through military conquest

Urban Transformation in Ancient Molise Elizabeth C. Robinson, 2021-04-18 This book uses the available evidence to create a site biography of Larinum from 400 BCE to 100 CE concentrating on its urban transformation during the Roman

conquest By focusing on local level agency it demonstrates strong local continuity in Larinum and its territory This work highlights the importance of local isolated variability in studies of the Roman conquest and provides a narrative that supplements larger works on this theme *The "Birth" of Italy* Filippo Carlà-Uhink,2017-09-25 Scholarship has widely debated the question about the existence of an Italian identity in the time of the Roman Republic basing on the few sources available and on the outcomes of the Augustan and imperial age In this sense this debate has for a long time been conducted without sufficient input from social sciences and particularly from social geography which has developed methodologies and models for the investigation of identities This book starts therefore from the consideration that Italy came to be by the end of the Republic a region within the Roman imperium and investigates the ways this happened and its consequences on the local populations and their identity structures It shows that Italy gained a territorial and symbolic shape and own institutions defining it as a territorial region and that a regional identity developed as a consequence by the 2nd century BCE The original interdisciplinary approach to the matter allows a consistent revision of the ancient sources and sheds now light on the topic providing important reflections for future studies on the subject **From Sabin to Roman: Cultural Change and Hybridization in Central Adriatic Italy** Oliva Menozzi,2024-06-06 The Central Adriatic Apennines roughly modern Abruzzo was occupied in antiquity by Italic populations variously termed Sabelli Sabellics or Sabellians The region in general has received little scholarly attention internationally compared with Tyrrhenian Italy although the last three decades have been very rich in excavations and finds Italy's Economic Revolution Saskia T. Roselaar,2019 The Roman conquest of Italy in the Republican period led to widespread economic changes in which the conquered Italians played an important role This volume explores the interplay between economic activities and the integration of the Italian peoples into the Roman civic legal social and cultural framework *Material Connections in the Ancient Mediterranean* Peter van Dommelen,A. Bernard Knapp,2010-09-23 *Material Connections* eschews outdated theory tainted by colonialist attitudes and develops a new cultural and historical understanding of how factors such as mobility materiality conflict and co presence impacted on the formation of identity in the ancient Mediterranean Fighting against hyper specialisation within the subject area it explores the multiple ways that material culture was used to establish maintain and alter identities especially during periods of transition culture encounter and change A new perspective is adopted one that perceives the use of material culture by prehistoric and historic Mediterranean peoples in formulating and changing their identities It considers how objects and social identities are entangled in various cultural encounters and interconnections The movement of people as well as objects has always stood at the heart of attempts to understand the courses and process of human history The Mediterranean offers a wealth of such information and *Material Connections* expanding on this base offers a dynamic new subject of enquiry the social identity of prehistoric and historic Mediterranean people and considers how migration colonial encounters and connectivity or insularity influence social identities The volume includes a series of innovative closely related case studies that examine the contacts

amongst various Mediterranean islands Sardinia Corsica Sicily Crete Cyprus the Balearics and the nearby shores of Italy Greece North Africa Spain and the Levant to explore the social and cultural impact of migratory colonial and exchange encounters Material Connections forges a new path in understanding the material culture of the Mediterranean and will be essential for those wishing to develop their understanding of material culture and identity in the Mediterranean Violence and Inequality Thomas P. Leppard, Sarah C. Murray, 2024-02-01 Violence and Inequality explores the deep time archaeological relationship between violence and inequality focusing on prehistoric archaeology's contribution to the understanding of the human dynamics among coercive force aggression and the state Detailed archaeological case studies within a strong theoretical framework built from historical studies consider the role of coercive violence in trajectories toward complexity how levels and types of violence can be traced alongside emerging wealth disparities and the social role of violence The assumption that violence and its threat buttressed elite social control is now challenged from various perspectives This volume incorporates new models of the relationship between violence and social inequalities into the archaeology of social complexity building more complicated and nuanced understandings of how different modes of social violence can militate different types of social constitution Contributions from a variety of methodological angles such as the bioarchaeology of health and trauma and radiogenic isotope studies and the aesthetics of violence use a comparative perspective drawing on data from the Southwestern US Bronze Age China early dynastic Egypt ancient Mesopotamia Roman Britain and the Andes Violence and Inequality offers an original and deep history of violence and inequality Understanding the long term intersection of violence and inequality and how they support or erode one another is of intrinsic importance making this work significant to the study of archaeology economic history and collective action **Cult Places and Cultural Change in Republican Italy** Tessa Dieder Stek, 2009 Summary This study throws new light on the Roman impact on Italic religious structures in the last four centuries BC and more generally on the complex processes of change and accommodation set in motion by the Roman expansion in Italy Cult places had a pivotal function among the various Italic tribes known to us from the ancient sources which had been gradually conquered and subsequently controlled by Rome Through an analysis of archaeological literary and epigraphic evidence from rural cult places in Central and Southern Italy including a case study on the Samnite temple of San Giovanni in Galdo the authors investigate the fluctuating function of cult places in among the non Roman Italic communities before and after the establishment of Roman rule *The Routledge Handbook of the Archaeology of Urbanism in Italy in the Age of Roman Expansion* Fabio Colivicchi, Myles McCallum, 2024-05-17 The Routledge Handbook of the Archaeology of Urbanism in Italy in the Age of Roman Expansion explores trends in urbanism across Italy in the period when Rome extended its power across the entire peninsula Sicily Sardinia and Corsica Chapters present the most up to date archaeological data in the first broad and detailed treatment of this topic superseding traditional academic particularism They present a significant re evaluation of the process of Roman

imperialism and the role of urbanization within it Particular attention is paid to evidence for local agency in different regions and at different sites but general trends are also highlighted Various types of urban sites are examined including Indigenous urban centers that pre date Rome s conquest colonies both Greek and Roman small centers in the hinterlands of larger urban entities and the symbiotic relationship between urban centers and their rural territories This volume challenges the existence of a standardized Roman model imposed on Rome s vanquished enemies through conquest and highlights that this was a period of intense experimentation Archaeological data are used to challenge traditional text based historiographic models and reveal the complex interplay and tensions between Roman imperial control local and regional traditions and broader Mediterranean trends This book is of importance to archaeologists and ancient historians working on urbanism and Roman Imperialism as well as those interested in early urbanism in the Western Mediterranean and Europe and the comparative study of imperialism and colonialism across geographical areas and historical periods

Globalizing Roman Culture

Richard Hingley, 2005-02-08 Richard Hingley here asks the questions What is Romanization Was Rome the first global culture Romanization has been represented as a simple progression from barbarism to civilization Roman forms in architecture coinage language and literature came to dominate the world from Britain to Syria Hingley argues for a more complex and nuanced view in which Roman models provided the means for provincial elites to articulate their own concerns Inhabitants of the Roman provinces were able to develop identities they never knew they had until Rome gave them the language to express them Hingley draws together the threads of diverse and separate study in one sophisticated theoretical framework that spans the whole Roman Empire Students of Rome and those with an interest in classical cultural studies will find this an invaluable mine of information

The Cambridge Manual of Latin Epigraphy Alison E. Cooley, 2012-09-13 This book advances our understanding of the place of Latin inscriptions in the Roman world It enables readers especially those new to the subject to appreciate both the potential and the limitations of inscriptions as historical source material by considering the diversity of epigraphic culture in the Roman world and how it has been transmitted to the twenty first century The first chapter offers an epigraphic sample drawn from the Bay of Naples illustrating the dynamic epigraphic culture of that region The second explores in detail the nature of epigraphic culture in the Roman world probing the limitations of traditional ways of dividing up inscriptions into different categories and offering examples of how epigraphic culture developed in different geographical social and religious contexts It examines the life cycle of inscriptions how they were produced viewed reused and destroyed Finally the third provides guidance on deciphering inscriptions face to face and handling specialist epigraphic publications

Foodways in Roman Republican Italy Laura M. Banducci, 2021-03-01 Foodways in Roman Republican Italy explores the production preparation and consumption of food and drink in Republican Italy to illuminate the nature of cultural change during this period Traditionally studies of the cultural effects of Roman contact and conquest have focused on observing changes in the public realm that is changing urban organization and landscape and monumental construction Foodways studies reach into the domestic realm How do the daily behaviors of individuals express their personal identity and How does this relate to changes and expressions of identity in broader society Laura M Banducci tracks through time the foodways of three sites in Etruria from about the third century BCE to the first century CE Populonia Musarna and Cetamura del Chianti All were established Etruscan sites that came under Roman political control over the course of the third and second centuries BCE The book examines the morphology and use wear of ceramics used for cooking preparing and serving food in order to deduce cooking methods and the types of foods being prepared and consumed Change in domestic behaviors was gradual and regionally varied depending on local social and environmental conditions shaping rather than responding to an explicitly Roman presence

Northern Italy in the Roman World Carolyn E. Roncaglia, 2018-05-15 Using a wide range of epigraphic archaeological numismatic and literary evidence Northern Italy in the Roman World traces the evolution of Northern Italy from the Bronze Age to Late Antiquity and examines how the Roman state dramatically changed the region This study on a much neglected part of the Roman world uses northern Italy as a case study for examining the impact of the Roman empire on areas that it controlled The book finds that while levels of Roman intervention varied considerably over time the Roman state greatly influenced both local and transregional developments This influence is shown to be pervasive and reflected in material ranging from loom weights to social networks

and from ritual horse burials to the careers of writers **Municipal Freedmen and Intergenerational Social Mobility in Roman Italy** Jeffrey A. Easton, 2023-12-11 This book challenges prevailing models of the ways formerly enslaved individuals in Ancient Rome navigated their social and economic landscape Drawing on the rich epigraphic evidence left behind by municipal freedmen and freedwomen who had been owned and manumitted by the communities of Roman Italy it pushes back against ameliorating views of slavery as a temporary condition and positive notions of a prosperous and consciously proud Roman freedman class Manumission was a far more complex process and it did not always put former slaves and their descendants on the straight and narrow path of upward mobility **Regional Pathways to Complexity P.**

A. J. Attema, G.-J. L. M. Burgers, Martijn van Leusen, 2010 Deze bundel is een mijlpaal in het onderzoek naar de Oude Middellandse Zee Met behulp van een vergelijkende aanpak zijn drie verschillende regionale landschappen van Italië uitvoerig onderzocht door archeologen Om een zeer gedetailleerd beeld te krijgen van de ontwikkeling van menselijke activiteiten van de late Bronstijd tot de opkomst van het Romeinse Rijk is er minutieus onderzoek gedaan naar nederzettingen heiligdommen en begraafplaatsen De milieugeschiedenis van deze gebieden en de geschiedenis van het door mensen gebruikte land zijn parallel geanalyseerd door gespecialiseerde projecten Wat ontstaat is een ongeëvenaarde reeks van inzichten in hoe regionale samenlevingen zich intern ontwikkelen en reageren op externe interventies zoals het kolonialisme imperialisme en internationale handel **Cosa and the Colonial Landscape of Republican Italy (Third and Second Centuries BCE)** Andrea De Giorgi, 2019-11-20 This important new volume examines archaeological evidence of Roman colonization of the Middle Republican period Themes of land use ethnic accommodation and displacement colonial identity and administrative schemes are also highlighted In delving deeply into the uniqueness of select colonial contexts these essays invite a novel discussion on the phenomenon of colonialism in the political landscape of Rome's early expansion Roman urbanism of the Middle Republican period brought to the Italian peninsula fundamental changes an important example of which highlighted by a wealth of studies is the ebullience of a dense network of colonies as well as a mix of senatorial tactics and individual initiatives that underpinned their foundation Whether Latin Roman or Maritimae colonies created a new mesh of communities and imposed a new topography more subtly they signified the mechanisms of the rising hegemony This book brings to the fore the diversity agendas and overall impact of a settlement device that changed the Italian landscape and introduced a new idea of Roman town

Embracing the Beat of Expression: An Psychological Symphony within **Italy And The West Comparative Issues In Romanization**

In a world eaten by screens and the ceaseless chatter of fast communication, the melodic splendor and psychological symphony created by the prepared term often diminish into the backdrop, eclipsed by the constant sound and interruptions that permeate our lives. However, situated within the pages of **Italy And The West Comparative Issues In Romanization** a marvelous fictional prize filled with organic emotions, lies an immersive symphony waiting to be embraced. Crafted by an elegant composer of language, that interesting masterpiece conducts viewers on a mental trip, skillfully unraveling the concealed melodies and profound affect resonating within each cautiously constructed phrase. Within the depths of this poignant assessment, we can examine the book is key harmonies, analyze their enthralling publishing design, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
