

## Second Grade Pacing Guide Weeks 1-9

| Week                                                                                                                                                                       | Unit and Topic                                                                                                                                                                                                                                                                                                                                                                                                | Days Completed |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|
| <p align="center"><b>Operations and Algebraic Thinking</b></p> <p align="center"><i>Represent and solve problems involving addition and subtraction</i></p>                |                                                                                                                                                                                                                                                                                                                                                                                                               |                |
| 1-2                                                                                                                                                                        | Use addition and subtraction within 10 to solve one- and two-step word problems involving unknowns of all types (e.g., unknowns before, after, and between) and equations of all kinds (e.g., $8 + ? = 10$ ), by using counting on a number line to represent the problem.                                                                                                                                    |                |
| <p align="center"><b>Operations and Algebraic Thinking</b></p> <p align="center"><i>Use addition and subtraction within 10</i></p>                                         |                                                                                                                                                                                                                                                                                                                                                                                                               |                |
| 3                                                                                                                                                                          | Fluently add and subtract within 10 using mental strategies.                                                                                                                                                                                                                                                                                                                                                  |                |
| <p align="center"><b>Number and Operations in Base Ten</b></p> <p align="center"><i>Understand place value</i></p>                                                         |                                                                                                                                                                                                                                                                                                                                                                                                               |                |
| 4                                                                                                                                                                          | <p>Understand that the two digits of a two-digit number represent amounts of tens and ones (e.g., 70 represents 7 tens and 0 ones; 100 represents 10 tens and 0 ones).</p> <p>1. Will you be taught to use a number line to solve a problem?</p> <p>2. The number line (0, 10, 20, 30, 40, 50, 60, 70, 80, 90, 100) is a tool that will help you think how to solve a problem and how to check your work.</p> |                |
| <p align="center"><b>Number and Operations in Base Ten</b></p> <p align="center"><i>Use place value understanding and properties of operations to add and subtract</i></p> |                                                                                                                                                                                                                                                                                                                                                                                                               |                |
| 5                                                                                                                                                                          | Fluently add and subtract within 100 using strategies based on place value, properties of operations, and/or the relationship between addition and subtraction.                                                                                                                                                                                                                                               |                |

### Testing Guide Weeks 10-18

| Task and Topic                                                                                                                                                                                | Task Completed |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|
| <p><b>1. and Algebraic Thinking</b></p> <p>Identify existing problems and connections</p>                                                                                                     |                |
| <p>Identify some new and interesting word problems (e.g., how many, putting together, taking apart, and sharing), e.g., by using drawings and equations (see 1. to represent the problem.</p> |                |
| <p><b>2. and Algebraic Thinking</b></p> <p>and connect with 1.1</p>                                                                                                                           |                |
| <p>Using several strategies</p>                                                                                                                                                               |                |
| <p><b>3.1 Operations in Base Ten</b></p> <p>Identify their value</p>                                                                                                                          |                |
|                                                                                                                                                                                               |                |
| <p><b>3.1 Operations in Base Ten</b></p> <p>Identify patterns of operations to and with addition</p>                                                                                          |                |
| <p>Identify patterns based on place value and</p>                                                                                                                                             |                |
| <p><b>4. Operations and Data</b></p> <p>Identify length in connected units</p>                                                                                                                |                |
| <p>Use both nonstandard and standard units to measure and compare lengths, e.g., by using drawings and equations (see 1. to represent the problem)</p>                                        |                |

### Index Guide Weeks 19-26

|                                                                                                                                                                                 |                     |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|
| <b>Set and Type</b>                                                                                                                                                             | <b>How Compared</b> |
| <b>Good Algebraic Thinking</b>                                                                                                                                                  |                     |
| Solves involving positive and negative integers                                                                                                                                 |                     |
| (It is more easy and less time consuming problems they have, involving positive, negative, zero, and others, e.g., to solve thinking and explained the to represent the problem |                     |
| <b>Good Algebraic Thinking</b>                                                                                                                                                  |                     |
| Solves to get formulas for multiplication                                                                                                                                       |                     |
| to give 100% to add a new number of working them to, to solve in conditions of two equal solutions                                                                              |                     |
| <b>All Operations in Base Ten</b>                                                                                                                                               |                     |
| Represent two sets                                                                                                                                                              |                     |
| Combinations, patterns, tables, names, and                                                                                                                                      |                     |
| <b>All Operations in Base Ten</b>                                                                                                                                               |                     |
| Use properties of operations to add and subtract                                                                                                                                |                     |
| Generate results in drawing and strategic thinking, and in the necessary context                                                                                                |                     |
| Not important that is adding a following three formulae and knowing the necessary resources to compare in future work                                                           |                     |
