Unity from Diversity Ray W. Cooksey, 2024-07-15 This book is about the choices that researchers can make when building knowledge in social and behavioural spaces Knowledge is the unity we seek and given that social and behavioural research is a human endeavour focusing on human lives and experiences there are diverse and ever evolving pathways towards achieving that unity Any one pathway will only ever yield partial glimpses into human life and diversity of potential choices serves to enrich expand and enlarge those glimpses in pursuit of more complete understanding The book shows that researchers and the researched are far more connected than disconnected in this world and those connections are spread out through a network of interlinked complex systems The book argues that pluralist systemic thinking provides the means by which a researcher's methodological choices for navigating the Data Triangle comprising data source data gathering and data analysis strategies and the learning they provide can be fully and robustly contextualised with respect to those systems and the expectations and influences that emerge from them Such contextualisations facilitate the refinement augmentation and or narrowing of those choices during the researcher's journey Anticipating choices downstream may have implications for more immediate choices and more immediate choices may create a cascade of necessary downstream choices An essential part of contextualisation involves making choices about patterns of guiding assumptions modes of knowledge building and research frames Researchers must develop the capacity to be flexible and adapt to unanticipated emergent events obstacles and political influences making trade offs where necessary throughout their research journey always with an eye on both feasibility and quality Importantly research has no meaning unless the researcher can ensure that it connects with intended audiences via specific research outcomes especially since the ultimate judgments about the convincingness meaningfulness quality and utility of the research are vested in those audiences Throughout the book special attention is
