Handbook of Psychotherapy Case Formulation Tracy D. Eells, 2022-04-22 Now in a significantly revised third edition featuring 60% new material this is the authoritative clinical reference and course text on a crucial psychotherapy skill. Leading practitioners of major psychotherapies describe step by step how to construct sound case formulations and use them to guide individualized treatment. Following a standard format chapters cover the historical background of each case formulation approach its conceptual framework and evidence base multicultural considerations steps in implementation application to treatment planning and practice and training resources. Rich case material includes examples of completed formulations. New to This Edition Chapters on additional models mindfulness based cognitive therapy acceptance and commitment therapy couple therapy and thematic mapping. Chapters on specific approaches for personality disorders suicidality and panic disorder. Expanded case examples now go beyond crafting the initial formulation to show how it shapes the entire course of therapy. Prior edition chapters are all updated or rewritten to reflect 15 years of advances in research clinical practice and training.

Handbook of Psychological Assessment, Case Conceptualization, and Treatment, Volume 2 Michel Hersen, David Reitman, 2008-05-13 Edited by recognized experts Michel Hersen and David Reitman. *Handbook of Psychological Assessment Case Conceptualization and Treatment Volume 2 Children and Adolescents* is a thorough and practical reference for those working with children and adolescents. Bringing together the most current theories and evidence based applications chapters address issues of importance including depressive disorders substance use disorders and childhood psychosis. Each chapter follows a structured format opening with an overview of assessment followed by case conceptualization and finally recommended treatment.

Formulation in Psychology and Psychotherapy Lucy Johnstone, Rudi Dallos, 2013-07-18 The first edition of *Formulation in Psychology and Psychotherapy* caught the wave of growing interest in formulation in a clinical context. This completely updated and revised edition summarises recent practice research developments and debates while retaining the features that made the first a leading text in the field. It contains new chapters on personal construct formulation formulation in health settings and the innovative practice of using formulation in teams. The book sees formulation as a dynamic process which explores personal meaning collaboratively and reflectively taking account of relational and social contexts. Two case studies one adult and one child illustrate the use of formulation from the perspectives of expert clinicians from six different theoretical positions. The book encourages the reader to take a constructively critical perspective on the many philosophical professional and ethical debates raised by the process of formulating people's problems. Among the issues explored are The social and political context of formulation Formulation in relation to psychiatric diagnosis The limitations of formulation Controversies and debates about formulation. This readable and comprehensive guide to the field provides a clear up to date and thought provoking overview of formulation from a number of perspectives essential for clinicians working in all areas of mental health.
