The MENA Powers and the Nile Basin Initiative Simon H. Okoth,2021-10-15 This book presents the current conflict in the Middle East and North Africa over the construction of the Grand Ethiopian Renaissance Dam GERD the biggest in Africa The project explains why economic and to some extent political survival is at the core of the conflict specifically between Egypt and Ethiopia Although the problem started with insistence of no dam by Egypt and subsequently narrowed down to a filling up period of the reservoir and technical operations of the dam finding a solution agreeable to both nations has been elusive for the past eight years Ensuring water for all members in the Basin is consistent with the United Nations Sustainable Development Goal 6 particularly given the looming effects of climate change increasing population urbanization and rising consumptive water uses

The Handbook of Rationality Markus Knauff,Wolfgang Spohn,2021-12-14 The first reference on rationality that integrates accounts from psychology and philosophy covering descriptive and normative theories from both disciplines Both analytic philosophy and cognitive psychology have made dramatic advances in understanding rationality but there has been little interaction between the disciplines This volume offers the first integrated overview of the state of the art in the psychology and philosophy of rationality Written by leading experts from both disciplines The Handbook of Rationality covers the main normative and descriptive theories of rationality how people ought to think how they actually think and why we often deviate from what we can call rational It also offers insights from other fields such as artificial intelligence economics the social sciences and cognitive neuroscience The Handbook proposes a novel classification system for researchers in human rationality and it creates new connections between rationality research in philosophy psychology and other disciplines Following the basic distinction between theoretical and practical rationality the book first considers the theoretical side including normative and descriptive theories of logical probabilistic causal and defeasible reasoning It then turns to the practical side discussing topics such as decision making bounded rationality game theory deontic and legal reasoning and the relation between rationality and morality Finally it covers topics that arise in both theoretical and practical rationality including visual and spatial thinking scientific rationality how children learn to reason rationally and the connection between intelligence and rationality

Philosophy of Language in Uruguay Carlos Enrique Caorsi,Ricardo J. Navia,2024-05-15 In Europe and later in the United States the revitalization of the philosophy of language emerged from the need to address certain perplexities concerning formal disciplines and to work out certain complexities found within philosophy In Uruguay philosophy of language began with Carlos Vaz Ferreira as an analysis of the common and argumentative uses of language but then expanded to address typically philosophical questions Edited by Carlos Enrique Caorsi and Ricardo J Navia Philosophy of Language in Uruguay Language Meaning and Philosophy demonstrates the different directions in which philosophy of

language has developed in Uruguay in the last twenty years giving a representative picture of how philosophical approaches from a linguistic perspective have developed in this Latin American country Uruguayan philosophy has a very small international presence but it has long produced works within the philosophical explorations of language that are worthy of being better known The contributors dissect these explorations through epistemology linguistics argumentation and cognitive sciences to discover how philosophers of language such as Vaz Ferreira have grown to understand the complexities of language and how it affects us today

The Routledge Handbook of Experimental Linguistics Sandrine Zufferey, Pascal Gygax, 2023-09-04 The Routledge Handbook of Experimental Linguistics provides an up to date and accessible overview of various ways in which experiments are used across all domains of linguistics and surveys the range of state of the art methods that can be applied to analyse the language of populations with a wide range of linguistic profiles Each chapter provides a step by step introduction to theoretical and methodological challenges and critically presents a wide range of studies in various domains of experimental linguistics This handbook Provides a unified perspective on the data methods and findings stemming from all experimental research in linguistics Covers many different subfields of linguistics including argumentation theory discourse studies and typology Provides an introduction to classical as well as new methods to conduct experiments such as eye tracking and brain imaging Features a range of internationally renowned academics Shows how experimental research can be used to study populations with various linguistic profiles including young children people with linguistic impairments older adults language learners and bilingual speakers Providing readers with a wealth of theoretical and practical information in order to guide them in designing methodologically sound linguistic experiments this handbook is essential reading for scholars and students researching in all areas of linguistics

Critical Thinking for Helping Professionals Eileen Gambrill, Leonard Gibbs, 2017-04-25 Critical thinking values skills and knowledge are integral to evidence based practice in the helping professions Inflated claims of knowledge both in the media as well as in the peer reviewed literature show critical thinking to be ever more important to decrease the influence of marketing in the guise of scholarship Practitioners must be able and willing to think critically about decisions that affect clients lives This requires minimizing the influence of cognitive and affective biases such as hindsight bias and avoiding misleading framing of problems that may harm clients but contribute to the profit of involved industries e g ignoring environmental sources of distress and focusing on client characteristics This book continues to focus on engaging students as active participants in exercises designed to hone their critical thinking skills drawing on related research and theory in a variety of related areas including judgement and decision making Exercises are included to help students enhance their skills in the process of evidence based practice including posing clear relevant questions and locating and critically appraising related research This fourth edition of Critical Thinking for Helping Professionals is for students of helping professions including social work nursing counseling and psychology Decision making skills guided by an ethical compass are vital in all helping professions

Propaganda in the Helping Professions Eileen Gambrill, 2012-02-20 Propaganda in the helping professions has grown by leaps and bounds in recent decades with alarming implications for clients and their families as well as the professionals who try to help them There is a fog that has been generated by corporate interests and organizations attempting to sell their services and products to desperate or poorly educated consumers Propaganda in the Helping Professions is a guide to lifting the confusion From phrenology to institutional crib beds for adult psychiatric patients from Roman bird beak masks to drugs designed to combat overurination readers are taken on a tour across the centuries of egregious practices of professionals and quacks including the present day medicalization of our lives The author one of the field s most relentless critics of fads phonies and fallacies shows readers how to think critically about both research and advertising in order to deliver effective services to clients and not be bamboozled by bogus claims about alleged problems risks and remedies Incisive interesting eminently readable and passionately argued this book places responsibility for client well being both on consumers to raise questions and on the professionals who claim to help them to accurately answer them

Voices of Supporters Veronika Koller, Natalia Borza, Massimiliano Demata, Laura Filardo-Llamas, Anna W. Gustafsson, Susanne Kopf, Marlene Miglbauer, Valeria Reggi, Ljiljana Šarić, Charlotta Seiler Brylla, Maria Stopfner, 2023-09-15 This book addresses an under researched area within populism studies the discourse of supporters of populist parties Taking the 2019 European elections as their case study the authors analyse how supporters in eleven different countries construct identities and voting motivations on social media The

individual chapters comprise a range of methods to investigate data from different social media platforms defining populism as a political strategy and or practice realised in discourse that is based on a dichotomy between the people who are unified by their will and an out group whose actions are not in the interest of the people with a leader safeguarding the interests of the people against the out group The book identifies what motivates people to vote for populist parties what role national identities and values play in those motivations and how the social media postings of populist parties are recontextualised in supporters comments to serve as a voting motivation

Multilingual Encounters in Europe's Institutional Spaces Johann W. Unger, Michal Krzyzanowski, Ruth Wodak, 2014-02-27 Multilingual encounters have been commonplace in many types of institutions and have become an essential part of supranational institutions such as the EU since their inception This volume explores and discusses different ways of researching the discursive dimension of these encounters and critically examines their relevance to policy politics and society as a whole This includes institutions at the local regional and supranational level Multilingualism in institutions is currently often seen as an obstacle rather than an opportunity at least with respect to European public and private spheres The volume asks exactly how is multilingualism conceptualized and talked about in different institutions how do different institutions deal with multilingualism both internally and externally what are the policy making rules and challenges for the future for various institutions with respect to multilingualism

Accounts, Excuses, and Apologies,

Third Edition William L. Benoit, 2024-01-01 In our constantly plugged in and connected world image is everything People groups organizations and countries frequently come under suspicion of wrongdoing and sometimes require defense Accounts Excuses and Apologies describes the image repair strategies that may be used to help defuse these threats The Third Edition of this classic book builds on theories for rehabilitating a damaged reputation by adding two new forms of denial straw denial appearing to deny an accusation by sidestepping it and deflecting attention trying to get the audience to focus on something other than the accusations against you Five contexts for image repair are examined corporate political sports entertainment international and third party when one person or organization tries to repair the image of another The book s case studies include current instances of reputation repair including Vladimir Putin on Ukraine and President Joe Biden on Afghanistan Southwest Airlines on flight cancellations Kobe Bryant on accusations of rape and Donald Trump on the January 6 hearings
