ITI Mechanic Tractor Manoj Dole, ITI Mechanic Tractor is a simple e Book for ITI Mechanic Tractor JOB Interview Apprentice Exam It contains objective questions with underlined bold correct answers MCQ covering all topics including all about measuring instrument and measure dimension of components and evaluate for accuracy basic electrical electronics and hydraulics pneumatics overhauling of vehicle use proper fasteners sheet metal operations and pipe joints wiring circuits in vehicle and prepare different electrical joints different weld joints vehicle parts and accessories Electronic diesel Control system cooling and lubrication system intake

Electrician Power Distribution MCQ Manoj Dole, Electrician Power Distribution MCQ is a simple Book for ITI Engineering Course Electrician Power Distribution NSQF Syllabus It contains objective questions with underlined bold correct answers MCQ covering all topics including all about Professional Skill Professional Knowledge and Employability Skills related to job role In addition to this a candidate is entrusted to make do project work and Extra Curricular Activities to build up confidence The practical skills are imparted in simple to complex manner simultaneously theory subject is taught in the same fashion to apply cognitive knowledge while executing task The broad components covered under Professional Skill subject are as below

FIRST YEAR The trainee learns about safety and environment use of fire extinguishers practices elementary first aid rescue a person and artificial resuscitation He gets the idea of trade tools its standardization identifies different types of conductors cables their skinning jointing soldering and crimping etc Basic electrical laws like Kirchhoff s law ohm s law laws of resistances and their application in different combinations of electrical circuits are practiced along with laws of magnetism The trainee practices on circuit for single phase and poly phase circuits for 3 wire 4 wire balanced unbalanced loads and working with analog and digital measuring instruments The trainee work with different electronic components circuits and analyze waveforms in CRO The trainee learns about testing and maintenance of batteries and solar cell Wiring practice with installation of different accessories like ICDP switch distribution fuse box and mounting energy meters are practiced as per IE rules and its fault detection is done by trainee Different types of light fitting are to be done like fluorescent tube HP sodium vapour lamp LEDs and their fixtures He learns Practice reading of power and control schematic drawings of motors and starters Operation testing and maintenance of induction motors alternators and synchronous motors are practiced The trainee learns to perform auto tuning and operation of AC drives Learns to repair and installation of inverter stabilizer battery charger and UPS

SECOND YEAR The trainee practices on control cabinet wiring and testing of control elements Understands power generation transmission and distribution network He identifies various substation equipment viz isolators over current relays earth fault relay differential relay REF relay lightening arresters Surge counter wave trap Reactor Capacitor bank Circuit breakers ACB SF 6 and VCB etc Practices operation and maintenance of isolators circuit breakers and other equipments used in distribution substations Skill will be gained on transformer for operation maintenance and functional tests viz open circuit

short circuit IR PI induced voltage BDV of transformer oil etc He practices on LT HT cable jointing laying of cables tests and fault finding of underground cables The trainee learns to install test repair and replace Current and Potential transformers used in distribution substations The trainee practices for pipe plate and meshearthing and carries out maintenance of earth system Identifies various conductors ACSR AAC ABC and cable insulation Practices on joining of overhead line conductors erection of poles fitting of accessories and commissioning of distribution line He learns to monitor meter readings reading of MRI reports generating electricity bills using SBM and maintaining log sheets at substations Practices isolation and switching procedure lock out tag out system settings of relays examine faults in control room and repair substation equipment and panels The Trainee also learns and practices on fire fighting equipment used in substations

Technician Power Electronics Systems Manoj Dole, 2018-12-13 Technician Power Electronics Systems is a simple e Book for ITI Engineering Course Technician Power Electronics Systems First Second Year Sem 1 2 3 4 Revised Syllabus in 2018 It contains objective questions with underlined bold correct answers MCQ covering all topics including all about safety and environment use of fire extinguisher trade tools its standardization familiarize with basics of electricity test the cable and measure the electrical parameter maintenance of batteries active electronic components soldering and de soldering of various types of electrical and electronic components on through hole PCBs computer system install OS Practice with MS office Use the internet browse create mail IDs download desired data from internet using search engine amplifier oscillator and wave shaping circuits power electronic component power control circuits Identify and test opto electronic devices SMD Soldering and De soldering of discrete SMD components digital ICs types of LEDs LED displays and interface 8051 microcontroller three phase rectifier chopper SMPS inverters and UPS various electro pneumatic circuits ICs transformer and other discrete components installing a solar panel process sensor identify wire test various sensors speed control of DC machine and single phase and 3 phase AC machines Install configure and check the performance of AC and DC drive to control the speed speed control of servo motor and lots more

ITI Information & Communication Technology System Maintenance ICTSM Manoj Dole, ITI ICTSM is a simple e Book for ITI Information Communication Technology System Maintenance ICTSM JOB Interview Apprentice Exam It contains objective questions with underlined bold correct answers MCQ covering all topics including all about the latest Important about safety and environment use of fire extinguishers Resistors and Soldering De soldering practice Inductors measure Inductance and uses of Transformer Capacitor types of Transistors and use it as Amplifiers voltage frequency modulation of modulator transmitter
