Teaching for Transfer Anne McKeough,Judy Lee Lupart,Anthony Marini,2013-12-16 The transfer of learning is universally accepted as the ultimate aim of teaching Facilitating knowledge transfer has perplexed educators and psychologists over time and across

theoretical frameworks it remains a central issue for today's practitioners and theorists This volume examines the reasons for past failures and offers a reconceptualization of the notion of knowledge transfer its problems and limitations as well as its possibilities Leading scholars outline programs of instruction that have effectively produced transfer at a variety of levels from kindergarten to university They also explore a broad range of issues related to learning transfer including conceptual development domain specific knowledge learning strategies communities of learners and disposition The work of these contributors epitomizes theory practice integration and enables the reader to review the reciprocal relation between the two that is so essential to good theorizing and effective teaching

Adult and Continuing Education: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources, 2014-03-31 Beyond the undergraduate and graduate levels education has traditionally ceased when students enter the workforce as professionals in their respective fields However recent trends in education have found that adult students beyond the traditional university age often benefit greatly from returning to further their education *Adult and Continuing Education Concepts Methodologies Tools and Applications* investigates some of the most promising trends in furthering education and professional development in a variety of settings and industries With an extensive array of chapters on topics ranging from non traditional students to online and distance education for adult learners this multi volume reference book will provide students educators and industry professionals with the tools necessary to make the most of their return to the classroom
