development The achievement of this overarching goal rests on an assumption that development does not happen by chance or by accident but rather through the deliberate application of analytical tools which public policy is able to provide Set within an Asian context the book emphasizes the role of public policy in reducing poverty eliminating deprivation promoting equity and ensuring social justice The book likewise aims to provide an argument for the developmental role of the state one which has been the subject of a long standing debate among development scholars In addition the book accounts for the role of civil society organizations particularly their involvement in multi stakeholder participation Through different case studies this book explains the outcome of public policy decisions as combinations of efforts among government and civil society actors to ensure the creation of the most optimal public good Finally the book takes a comparative perspective i e there are cases that directly or indirectly implicate the regional character of public policies that result in the creation and distribution of regional public goods

The Radical Left in Europe in the Age of Austerity Babak Amini,2017-10-02 The complex trajectory of Europe after the 2008 global financial crisis has led to the catastrophic failure of deep austerity measures that swept across the Union and is reflected in the rise of some radical left parties such as SYRIZA as well as an unfortunate rise in far right and nationalist parties and movements This collection brings together a group of European scholars and activists from various European countries to discuss the recent economic political and electoral changes in respective countries and the current status and future plans of radical left parties and movements This book fills a significant gap within the current literature in the English speaking world on post 2008 Europe featuring a nation based European wide survey of the current activities and plans of radical Left parties and movements in relation to the mounting social political and economic problems in Europe This book contributes to the discussion by presenting a realistic depiction of the existing radical Left forces in Europe This title was previously published as a special issue of Socialism and Democracy

The Failure of Socialism in South Korea Yunjong Kim,2015-07-03 Despite the fact that socialist parties have proved to be a major political force across the world this has not been the case in Asian countries Socialism in South Korea is a quintessential example of this failure Despite the existence of a socialist party and what would seem to be the right conditions for development the Korean socialist tendency has failed to become a meaningful force in politics This book explores why and under what conditions Korean socialism has failed to develop into a social democrat movement in the post war period Within the context of the integration of structural and agency factors it goes beyond the generally accepted view that the left failed because of suppression by the state and proffers that the real reason why socialism failed lay with its inability to develop beyond revolutionary socialism and build a more pragmatic social democracy that could develop a broad alliance within Korean society Also drawing on examples from Western Europe and Latin America where left wing forces have achieved power this book will be of huge interest not only to students and scholars of Asian and Korean politics but also socialism comparative and international politics alike

Digital Technologies and the Evolving African Newsroom Hayes Mabweazara,2016-04-14 African

newsrooms are experiencing the disruptive impact of new digital technologies on the way they generate and disseminate news. Indeed, newsrooms are being forced to adapt in various ways, and there are clear dimensions of localized creativity and adaptations by journalists to the digital revolution. In the same way, the influences of digitization, Internet, and social media are changing the informational needs of readers, including how they engage with news. These developments nonetheless remain on the margins of mainstream journalism research; very few researchers have sought to qualitatively capture the implications of developments in digital technologies on the routine practices of African journalists, especially in their natural habitat, the newsroom. In this light, this edited volume interrogates the changing ecology of newsmaking in Africa in the context of rapid technological changes in newsrooms as well as in the wider social context of news production. It brings together six contributions drawn from five countries: Egypt, Mozambique, South Africa, Nigeria, and Zimbabwe, to explore practices, challenges, and professional normative dilemmas emerging with the adoption and appropriation of new technologies. While the studies point to dimensions of localised new technology appropriations as defined by the complex socio-political structures in which African journalists operate, they are not rigidly confined to Africa. They are expressly in dialogue with theoretical observations largely emerging from Western scholarship. In this sense, the book goes beyond simply mainstreaming African perspectives; it engages directly with dominant theoretical observations and offers a point of departure for developing what could loosely be branded as an African digital journalism epistemology. This book was originally published as a special issue of *Digital Journalism*.

Youth and Inequality in Education Michael Heathfield, Dana Fusco, 2015-07-30. The transition to adulthood for many is mediated by class, culture, and local/global influences on identity. This volume analyzes the global injustices that create inequities and restrict future opportunities for young people during this transitional time, including poverty, unemployment, human rights, race, ethnicity, and location. It critically examines global instances of youth discrimination, offering positive strategies and practices such as youth work that successfully remediate these injustices. With international contributions from Aotearoa, New Zealand, Australia, England, Malaysia, Peru, Philippines, Portugal, Morocco, Jordan, and the U.S., this volume is particularly important to researchers and scholars in the fields of youth studies, education, and social work.
