3-5 Force & Motion TEACHER GUIDE

How to Use your Field Trip Guide

Field Trip Guides provide structure and suggestions on a per-teacher basis within CCOE's educational goals. They will allow you, your students and your opportunities to be prepared to address outcomes and standards from the suggested and target by visiting goals for your visit. These goals may include reflecting aspects of your science curriculum, understanding what happens to be a scientist, or allowing your students that science learning can be used everywhere. If your target particular outcomes goals, use the Field Trip Guide to connect what you see during all your observations with your own or your student activities. We recommend making copies of the Discoverer Hunt for each of your observations, so that they can guide the students through the exhibits and help record observations. Our Discoverer Hunts are designed to be open-ended, and focus on critical skills and scientific thinking. As a result, there may not be one right answer for each of the questions. This means you will NOT find an answer key for any of the Discoverer Hunts. Instead, you'll find descriptions for various concepts that are based on your experiences. If you feel you need more clarification, you can always contact us at fieldtrips@ccoe.edu.

CCOE is a big place. There really, you may not see everything in one day. Take your time! Don't rush, and allow your students to explore the things that they find interesting. Allow them to ask you a lot of questions to the best of your ability. There will be a lot of things to see and experience. Rather than trying to see it everything, visit just a few areas to spend your day. This will save time, but you will learn more.

Exhibits related to Force & Motion

CCOE is a great place to learn about force and motion. Below are descriptions of exhibits related to force and motion. Each, just above, the word "by" after each title relates to those exhibit areas. You will find them in Chicago, Chilton, Big Science Park, Space, and the Hallways. You may want to consider making a reservation for one of the following experiences to enhance your experience of force & motion. All shows require a valid student photo.

The Exhibit: The Show - This dynamic demonstration includes potential and kinetic energy, force and motion, and rotational motion. Science can be FUN! CCOE Reservations for up to 200 people at \$4000 show.

The Exhibit: Call - Your group can spend some time in the Exhibit Call taking staff spend on being out of school. Reservations available for groups of 4 or less.
