School Handbook, 101st Airborne Division (Air Assault) The Sabalauski Air Assault School Handbook & 101st Airborne  
Division (Air Assault) Gold Book , Air Assault is a combat insertion unit using helicopters to transport and insert soldiers into  
battle provide medical evacuation provide close air support provide resupply operations It is usually a company or bat talion  
sized element The term Air Assault derives from two types of operations known as Air Mobility and Vertical Envelopment Air  
Mobility Operations were de veloped by the German Army during WWII in the 1930 s The US Army soon adopted this method  
of offensive operations in 1941 using wooden gliders The glider was assisted into the air by being towed by a larger aircraft  
and then released The pilot had to navigate the large glider loaded with a team of infantry soldiers to the landing zone  
behind enemy lines at night and attempt to land safely Once the pilot landed the glider he would join the mission as another  
infantry soldier with the team that he flew in Although the gliders and techniques used were advanced for that time period  
they did pose some disadvantages Once the aircraft was landed safely that team of soldiers were cut off from allied troops  
Pilots had to be cross trained with infantry tactics so he could operate as both roles The air mobility glider was abandoned  
after WWII after the invention of the helicopter PREFACE 1 November 2011 1 The Sabalauski Air Assault School TSAAS is a
