Governance Theory And Practice A Cross Disciplinary Approach:

Governance Theory and Practice V. Chhotray, G. Stoker, 2008-11-12 Confusion about governance abounds. This book tackles these weaknesses head on and aims to provide a wider vision of the area examining three critical areas of practice: environmental, corporate and participatory governance.

The Global Politics of Artificial Intelligence Maurizio Tinnirello, 2022-04-24 Technologies such as artificial intelligence have led to significant advances in science and medicine but have also facilitated new forms of repression, policing and surveillance. AI policy has become without doubt a significant issue of global politics. *The Global Politics of Artificial Intelligence* tackles some of the issues linked to AI development and use, contributing to a better understanding of the global politics of AI. This is an area where enormous work still needs to be done and the contributors to this volume provide significant input into this field of study to policy makers, academics and society at large. Each of the chapters in this volume works as a freestanding contribution and provides an accessible account of a particular issue linked to AI from a political perspective. Contributors to the volume come from many different areas of expertise and of the world and range from emergent to established authors. Chapter 2 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license.

Why Politics Matters Gerry Stoker, 2017-09-16 Profound social changes have made governance and political leadership more challenging than ever. Devolution and Localism in England David M. Smith, Enid Wistrich, 2016-04-22 Combining historical and policy study with empirical research from a qualitative study of regional elites, this book offers an original and timely insight into the progress of devolution of governance in England. With particular interest in how governments have tried and continue to engage English people in sub-national democratic processes while dealing with the realities of governance, it uses in-depth interviews with key figures from three English regions to get the inside view of how these processes are seen by the regional and local political, administrative, business and voluntary sector elites who have to make policies work in practice. Tracing the development of decentralisation policies through regional policies up to and including the general election in 2010 and the radical shift away from regionalism to localism by the new Coalition Government thereafter, the authors look in detail at some of the key policies of the incumbent Coalition Government such as City Regions and Localism and their implementation. Finally, they consider the implications of the existing situation and speculate on possible issues for the future.
