History Takes Place Istanbul Dynamics:

History Takes Place: Istanbul Anna Hofmann, Ayşe Öncü, 2016 Reality and imagination blur in our images of Istanbul Breathtaking panoramas seem to open up views of the entire city which appears as a whole that encompasses space and time However those who immerse themselves into the pulsating metropolis with its nearly 15 million inhabitants soon realize that Istanbul cannot be fully grasped or represented in its entirety With every step there is a layering of traces of wide ranging historical eras which impacts on the present *History Takes Place Istanbul* seeks to open up a new perspective on Istanbul not through narrative or typical images of East and West but through a series of spontaneous shots Contributions by young academics from various disciplines history cultural and social sciences as well as geography architecture and urban planning address contested histories and memories experiences of home and exile or of exclusion and resistance in the public sphere The reader is invited to rethink the relationship between the historical past and the ethnographic present and at the same time to see how history is always in the making in Istanbul

The Heritage of Edirne in Ottoman and Turkish Times Birgit Krawietz, Florian Riedler, 2019-12-16 Modern scholarship has not given Edirne the attention it deserves regarding its significance as one of the capitals of the Ottoman Empire This edited volume offers a reinterpretation of Edirne's history from Early Ottoman times to recent periods of the Turkish Republic Presently disconnections and discontinuities introduced by the transition from empire to nation state still characterize the image of the city and the historiography about it In contrast this volume examines how the city engages in the forming deflecting and creative appropriation of its heritage a process that has turned Edirne into a UNESCO heritage hotspot A closer historical analysis demonstrates the dissonances and contradictions that these different interpretations and uses of heritage produce From the beginning Edirne was shaped by its connectivity and relationality to other places above all to Istanbul This perspective is employed at many different levels e.g. with regard to its population institutions architecture infrastructures and popular culture but also regarding the imaginations Edirne triggered In sum this multi disciplinary volume boosts urban history beyond Istanbul and offers new insight into Ottoman and Turkish connectivities from the vantage point of certain key moments of Edirne's history

Robert College of Constantinople Nick Petrov, 2023-06-21 In 1863 Protestant missionaries established Robert College in Constantinople the capital of the Ottoman Empire holding the distinction of being the pioneer American college abroad In many cases the American educators at Robert College understood the field of education as a superior tool for mission The book brings into conversation the convergence of the Protestant mission movement in the Ottoman Empire with the diverse tones of American efforts for providing education and assisting of the economic and social progress The author argues that despite being established as a religious institution with common goals and aspirations Robert College did not fully progress and reach its ambitions until the school switched to what the founding fathers called a non religious curriculum Robert College exclusively abandoned its Christian theological curriculum by minimizing its explicitly Christian dimensions and

became a school with greater financial and structural autonomy which eventually gave the school the freedom to become crossroads of cultures faiths and nationalities The story of Robert College in Constantinople is a fascinating account for examining the influence of United States foreign affairs and culture on various aspects of society in the nineteenth and early twentieth century Ottoman Empire
