Mazes and Labyrinths W. H. Matthews, 2015-07-10 Excerpt from Mazes and Labyrinths A General Account of Their History and Developments Advantages out of all proportion to the importance of the immediate aim in view are apt to accrue whenever an honest endeavour is made to find an answer to one of those awkward questions which are constantly arising from the natural working of a child s mind It was an endeavour of this kind which formed the nucleus of the inquiries resulting in the following little essay It is true that the effort in this case has not led to complete success in so far as that word denotes the formulation of an exact answer to the original question which being one of a number evoked by parental experiments in seaside sand maze construction was Father who made mazes first of all On the other hand one hesitates to apply so harsh a term as failure when bearing in mind the many delightful excursions rural as well as literary which have been involved and the alluring vistas of possible future research that have been opened up from time to time in the course of such excursions By no means the least of the adventitious benefits enjoyed by the explorer has been the acquisition of a keener sense of appreciation of the labours of the archaeologist the anthropologist and other more special types of

Mazes and Labyrinths. A General Account of Their History and Development ... With Illustrations [and a Bibliography]. William Henry MATTHEWS (of Ruislip, Middlesex.),1922 **The Visionary Queen** Theresa Brock,2023-10-13 *The Visionary Queen* affirms Marguerite de Navarre s status not only as a political figure author or proponent of nonschismatic reform but also as a visionary In her life and writings the queen of Navarre dissected the injustices that her society and its institutions perpetuated against women We also see evidence that she used her literary texts especially the *Heptameron* as an exploratory space in which to generate a creative vision for institutional reform The *Heptameron* s approach to reform emerges from statistical analysis of the text s seventy two tales which reveals new insights into trends within the work including the different categories of wrongdoing by male institutional representatives from the Church and aristocracy as well as the varying responses to injustice that characters in the tales employ as they pursue reform Throughout its chapters *The Visionary Queen* foregrounds the trope of the labyrinth a potent symbol in early modern Europe that encapsulated both the fallen world and redemption two themes that underlie Marguerite s project of reform

Cities and Metaphors Somaiyeh Falahat, 2018-04-19 Introducing a new concept of urban space Cities and Metaphors encourages a theoretical realignment of how the city is experienced thought and discussed In the context of Islamic city studies relying on reasoning and rational thinking has reduced descriptive vivid features of the urban space into a generic scientific framework Phenomenological characteristics have consequently been ignored rather than integrated into theoretical components The book argues that this results from a lack of appropriate conceptual vocabulary in our global body of scholarly literature It challenges existing theories introduces and applies the concept of Hezar tu a thousand insides to rethink the spaces in historic cores of Fez Isfahan and Tunis This tool constructs a staging post towards a different articulation of urban space based on spatial physical virtual symbolic and social edges and thresholds nodes of sociospatial relationships zones of containment state of intermediacy and thus a logic of ambiguity rather than determinacy Presenting alternative narrations of paths through sequential discovery of spaces this book brings the sensual features of urban space into the focus The book finally shows that concepts derived from local contexts enable us to tailor our methods and theoretical structures to the idiosyncrasies of each city while retaining the global commonalities of all Hence in broader terms it contributes to a growing awareness that urban studies should be more inclusive by bringing the diverse global contexts of cities into the body of our urban knowledge

Centaurs, Rioting in Thessaly: Memory and the Classical World Martyn Hudson, 2018-01-07 This book treads new paths through the labyrinths of our human thought It meanders through the darkness to encounter the monsters at the heart of the maze Minotaurs Centaurs Automata Makers Humans One part of our human thought emerges from classical Ionia and Greek civilisation more generally We obsessively return to that thought tread again its pathways re enact its stories repeat its motifs and gestures We return time and time again to construct and re construct the beings which were part of its cosmology and mythology stories enacted from a classical world which is itself at once imaginary and material The Never Never Lands of the ancient world contain fabulous beasts and humans and landscapes of desire and violence We encounter the rioting Centaurs there and never again cease to conjure them up time and time again through our history The Centaur mythologies display a fascination with animals and what binds and divides human beings from them The Centaur hints ultimately at the idea of the genesis of civilisation itself The Labyrinth constructed by Daedalus is itself a prison and a way of thinking about making designing and human aspiration Designed by humans it offers mysteries that would be repeated time and time again a motif which is replicated through
