Contributors Index      *Writing and Presenting a Dissertation on Linguistics, Applied Linguistics and Culture Studies for Undergraduates and Graduates in Spain* María Luisa Pérez Cañado, Barry Pennock-Speck, 2015-06-23 This book has been designed to guide students through the main phases in writing and presenting an undergraduate MA or PhD dissertation. These include choosing a topic, carrying out the review of literature, gathering and analyzing data, writing up the dissertation, and finally preparing and delivering a presentation within the context of a viva. This eminently practical manual has been written in a reader-friendly style. Theoretical explanations are complemented by numerous examples for analysis and illustration, as well as activities to apply, practise and review the notions introduced in each chapter.      Upsetting Composition Commonplaces Ian Barnard, 2014-07-15 In Upsetting Composition Commonplaces Ian Barnard argues that composition still retains the bulk of instructional practices that were used in the decades before poststructuralist theory discredited them. While acknowledging that some of the foundational insights of poststructuralist theory can be difficult to translate to the classroom, Barnard upends several especially intransigent tenets that continue to influence the teaching of writing and how students are encouraged to understand writing. Using six major principles of writing classrooms and textbooks: clarity, intent, voice, ethnography, audience, and objectivity, Barnard looks at the implications of poststructuralist theory for pedagogy. While suggesting some evocative poststructuralist pedagogical practices, the author focuses on diagnosing the fault lines of composition's refusal of poststructuralism rather than on providing solutions in the form of teaching templates. Upsetting Composition Commonplaces addresses the need to more effectively engage in poststructuralist concepts in composition in an accessible and engaging voice that will advance the conversation about relations between the theory and teaching of writing.      Writing Ethnography (Second Edition) Jessica Smartt Gullion, 2021-11-29 Ethnographers spend a tremendous amount of time in the field collecting all sorts of empirical material, but how do they turn their work into books or articles that people actually want to read? This concise, engaging guide will help academic writers at all levels to write better. Many ethnography textbooks focus more on the ethno portion of our craft and less on developing our graph skills. Gullion fills that gap, helping ethnographers write compelling, authentic stories about their fieldwork. From putting the first few words on the page to developing a plot line to publishing, Writing Ethnography offers guidance for all stages of the writing process.      **Resources in Education**, 2000-10      **Successful Writing for Qualitative Researchers** Peter Woods, Pat Sikes, 2022-03-30 The fully updated third edition of *Successful Writing for Qualitative Researchers* includes new material on the nature of qualitative research and the significance of contemporary circumstances in which academic writers have to work, as well as ethical considerations and authorial responsibilities.
