Cyclopaedia of the Society for the Diffusion of Useful Knowledge, 1838 **A History of the German Language Through Texts** Thomas Gloning, Christopher Young, 2004-03 Written in a lively and accessible style the book looks at the history of German through a wide range of texts from medical legal and scientific writing to literature everyday newspapers and adverts *Foundational Texts of Mormonism* Mark Ashurst-McGee, Robin Jensen, Sharalyn D. Howcroft, 2018-02-16 Joseph Smith founding prophet and martyr of the Church of Jesus Christ of Latter day Saints personally wrote dictated or commissioned thousands of documents Among these are several highly significant sources that scholars have used over and over again in their attempts to reconstruct the founding era of Mormonism usually by focusing solely on content without a deep appreciation for how and why a document was produced This book offers case studies of the sources most often used by historians of the early Mormon experience Each chapter takes a particular document as its primary subject considering the production of a document as an historical event in itself with its own background purpose circumstances and consequences The documents are examined not merely as sources of information but as artifacts that reflect aspects of the general culture and particular circumstances in which they were created This book will help historians working in the founding era of Mormonism gain a more solid grounding in the period s documentary record by supplying important information on major primary sources Tractates and Sermons Richard Hooker, 1990 Although Richard Hooker 1554 1600 is now known principally as the author of the Laws of Ecclesiastical Polity in his lifetime the Tractates and Sermons brought him greater notoriety Hooker s views on justification the perseverance of faith and the relationship of the Church of Rome to the reformed Church of England were widely reported and texts of the tracts were extensively circulated in manuscript Thanks to the meticulous editing of Laetitia Yeandle Curator of Manuscripts at the Folger Shakespeare Library the contemporary

impact of these debates can now be appreciated for the first time These tracts provide a unique perspective on the turbulent world of late Elizabethan theology In addition they lay the doctrinal foundations of the Laws of Ecclesiastical Polity itself and with the excellent commentary of Egil Grislis Professor of Theology at the University of Manitoba in Winnipeg enable us to trace the intellectual formation of sixteenth century England s most innovative and provocative theologian The volume includes a newly discovered letter three newly attributed sermon fragments and analysis by P F Forte of Hooker s distinctive preaching style Catalog of Copyright Entries.
