Human Evolution Andrew Y. Glikson,Colin Groves,2015-11-04 The book outlines principal milestones in the evolution of the atmosphere oceans and biosphere during the last 4 million years in relation with the evolution from primates to the genus Homo which uniquely mastered the ignition and transfer of fire The advent of land plants since about 420 million years ago ensued in flammable carbon rich biosphere interfaced with an oxygen rich atmosphere Born on a flammable Earth surface under increasingly unstable climates descending from the warmer Pliocene into the deepest ice ages of the Pleistocene human survival depended on both biological adaptations and cultural evolution mastering fire as a necessity This allowed the genus to increase entropy in nature by orders of magnitude Gathered around camp fires during long nights for hundreds of thousandth of years captivated by the flickering life like dance of the flames humans developed imagination insights cravings fears premonitions of death and thereby aspiration for immortality omniscience omnipotence and the concept of god Inherent in pantheism was the reverence of the Earth its rocks and its living creatures contrasted by the subsequent rise of monotheistic sky god creeds which regard Earth as but a corridor to heaven Once the climate stabilized in the early Holocene since about 7000 years ago production of excess food by Neolithic civilization along the Great River Valleys has allowed human imagination and dreams to express themselves through the construction of monuments to immortality Further to burning large part of the forests the discovery of combustion and exhumation of carbon from the Earth s hundreds of millions

of years old fossil biospheres set the stage for an anthropogenic oxidation event affecting an abrupt shift in state of the atmosphere ocean cryosphere system The consequent ongoing extinction equals the past five great mass extinctions of species constituting a geological event horizon in the history of planet Earth **Society in Focus** William E.

Thompson, Joseph V. Hickey, Mica L. Thompson, 2018-11-13 **Society in Focus** An Introduction to Sociology Ninth Edition emphasizes how society and social forces affect everything from globalization and international policies to day to day activities in our personal lives In this edition the authors go beyond the mere questioning of issues to take a closer look at the social world in which we live They provide an integrated approach that uses sociological thinking to help students analyze and understand key concepts To focus increased attention on sociological thinking and research methods they have chosen four key themes media and technology globalization cultural diversity and trends for the future Because sociology is about all of us and our daily lives it is an eminently practical and useful discipline for understanding our social world This Ninth Edition Includes specific student outcomes for each chapter as well as assessment items linked to those outcomes new chapter opening vignettes that give real life examples illustrating important terms concepts and theories included in that chapter updated data statistics maps charts boxes and tables citing the latest research available examples of the powerful impact of media and technology on society especially the role social media play in helping to shape and define our daily social lives new photos and cartoons accompanied by critical thinking questions that reinforce and illustrate important sociological terms concepts and theories **Improving the Quality of Child Custody Evaluations** Lauren Woodward Tolle, William

O'Donohue, 2012-05-10 This book resolves a key problem that all evaluators need to attend to i.e. what constructs ought to be measured all the while giving them practical ways of doing this It also presents data showing family court judges like the model and it does this fairly briefly but in a way that is nicely embedded in the research literature **Educating**

Adolescent Newcomers in the Superdiverse Midwest Brian Seilstad, 2021-03-24 This book juxtaposes superdiversity with the reality of English centrality in the United States set against the long standing challenges regarding migration and language policy in the US most recently underlined by Donald Trump's 2016 election win and subsequent aggressive and partially successful attempts to limit migration The book explores the history policies and practices of an adolescent newcomer program in Central Ohio in the US Midwest that seeks to provide an equitable and engaging education to its students It addresses on the one hand positive progressive institutional responses including an embrace of translanguaging and a willingness to acknowledge and build on students' linguistic backgrounds On the other hand the book explores the effects of inconsistent inefficient and sometimes nonsensical patterns in these responses The book analyzes student outcomes and argues that although some students are well served by the program tensions in the program lead to uneven and even troubling behavior and results ranging from poor academic performance to dropping out Finally the book addresses ongoing evolutions and debates to the program and their potential to realize the program's aspirations Best Practice Approaches

to the Study of Cognitive Functioning and Physical Activity/Sports Antonio Hernández-Mendo, Sidonio Serpa, Jeanette M. López-Walle, Rafael E. Reigal, Oddrun Samdal, 2020-07-29

Children's Rights 0-8 Mallika Kanyal, 2014-03-26 Children's Rights explores the relevance of children's participatory rights in education particularly at a time when there are competing demands in meeting the rigid curriculum frameworks whilst taking into account children's entitlement to participate in matters affecting their lives. It engages with theoretical and practical models of participation with an aim to support reflective practice. The chapters are informed by wider academic debates and examples from research and everyday practice in early year settings making it an accessible read for students, practitioners as well as researchers.

Introduction to Personality Walter Mischel, Yuichi Shoda, Ozlem Ayduk, 2007-09-10 This Eighth Edition reflects the new developments within personality psychology and gives the student a picture of the field as a cumulative integrative science that builds on its rich past and now allows a much more coherent view of the whole functioning individual in the social world. This revision subtitled *Toward an Integrative Science of the Person* is committed to making that integration and its practical applications and personal relevance to everyday life even more clear and compelling for our students. In this new edition the focus is placed on distilling how findings at each of the six major levels of analysis of personality trait, disposition, biological, psychodynamic, motivational, behavioral, conditioning, phenomenological, humanistic and social cognitive still speak to and inform each other and how they add to the current state of the science and its continuing growth.

Educational Research Burke Johnson, Larry Christensen, 2012 Educational Research: Quantitative, Qualitative and Mixed Approaches Fourth Edition is a graduated text that introduces readers to the fundamental logic of empirical research and the sources of research ideas. Detailed descriptions guide students through the design and implementation of actual research studies with a balanced examination of quantitative, qualitative and mixed research. Definitions of key terms are provided in the margins for easy reference and to help students understand the multiple research methods and strategies used in education and related fields.

New Features Student study site materials are integrated within the text with the use of marginal icons depicting interactive concept maps, journal articles and tools and tips. New Action Research activity for each chapter is included. A chapter on Writing the Research report incorporates changes in new edition of the Publication Manual of the APA and includes a sample manuscript using APA style. New exhibits on Egon G. Guba and Donald T. Campbell and a new table on applying qualitative research validity strategies are incorporated. New material on research paradigms, types of plagiarism, using free software for random sampling and assignment, nomological vs ideographic causation are integrated. Several chapters are slightly shortened and made simpler without sacrificing any of the book's rigor.
