Infinite Vision How Aravind Became The Worlds Greatest Business Case For Compassion:

Infinite Vision Pavithra K. Mehta, Suchitra Shenoy, 2011-11-07 The Aravind Eye Care System based in India is the world's largest provider of high quality eye care. It is also one of the world's most incredible and revolutionary organizations. This is the first book to explore Aravind's history and the distinctive philosophies, practices and commitments that are the keys to its success.

Infinite Vision Pavithra K. Mehta, Suchitra Shenoy, 2011-11-07 A must read for anyone interested in leadership service and the building of institutions that release the best energies of the human spirit. Jacqueline Novogratz, New York Times bestselling author. When a crippling disease shattered his lifelong ambition, Dr V Venkataswamy chose an impossible new dream to cure the world of blindness. The tiny clinic he founded in India defied conventional business logic and is now the largest provider of eye care on the planet. At Aravind, patients choose whether to pay or not. Millions are treated for free yet the organization remains stunningly self-reliant. Serving everyone from penniless farmers to the president, it delivers world-class outcomes at less than a hundredth of what similar services cost in advanced nations. Its model is emulated by organizations everywhere from Rwanda to San Francisco. Infinite Vision uncovers the radical principles behind Aravind's baffling success. Charged with profound insights and stories, it draws readers to the heart of Dr V's selfless vision, proving how choices that seem quixotic can, when executed with compassion and integrity, yield incredible results. Results that can light the eyes of millions. Reveals the power of a model that combines business discipline with compassion. May the wisdom of Dr V and Aravind shared here inspire many such initiatives for the wellbeing of future generations. Muhammad Yunus, Nobel Peace Prize Laureate, Founder Grameen Bank. Aravind may be a case study for MBA students and a model social business, but to me, this book told a story with elegance, clarity and intimacy. Fred de Sam Lazaro, PBS NewsHour. In the world of blindness, Dr V has performed a miracle. Ram Dass, author of *Be Here Now*. *Reverse Innovation in Health Care* Vijay

Govindarajan, Ravi Ramamurti, 2018-06-19 Health Care Solutions from a Distant Shore. Health care in the United States and other nations is on a collision course with patient needs and economic reality. For more than a decade, leading thinkers including Michael Porter and Clayton Christensen have argued passionately for value-based health care reform, replacing delivery based on volume and fee-for-service with competition based on value as measured by patient outcomes per dollar spent. Though still a pipe dream here in the United States, this kind of value-based competition is already a reality in India. Facing a giant population of poor, underserved people and a severe shortage of skills and capacity, some resourceful private enterprises have found a way to deliver high quality health care at ultra-low prices to all patients who need it. This book shows how the innovations developed by these Indian exemplars are already being practiced by some far-sighted US providers, reversing the typical flow of innovation in the world. Govindarajan and Ramamurti, experts in the phenomenon of reverse innovation, reveal four pathways being used by health care organizations in the United States to apply Indian-style principles to attack the exorbitant costs, uneven quality and incomplete access to health care. With rich stories and detailed

accounts of medical professionals who are putting these ideas into practice this book shows how value based delivery can be made to work in the United States This bottom up change doesn t require a grand plan out of Washington DC agreement between entrenched political parties or coordination among all players in the health care system It needs entrepreneurs with innovative ideas about delivering value to patients Reverse innovation has worked in other industries We need it now in health care

Everyday Creativity and the Healthy Mind Ruth Richards,2018-08-20 As human beings we all have creative potential a quality essential to human development and a vital component to healthy and happy lives However this may often remain stifled by the choices we make or ways in which we choose to live in our daily lives Framed by the Four Ps of Creativity product person process press this book offers an alternative understanding of the fundamentals of ordinary creativity Ruth Richards highlights the importance of process circumventing our common preoccupation with the product or creative outcome of creativity By focusing instead on the creator and the creative process she demonstrates how we may enhance our relationships with life beauty future possibilities and one another This book illustrates how our daily life styles and choices as well as our environments may enable and allow creativity whereas environments not conducive to creative flow may kill creative potential Also explored are questions of normality beauty and nuance in creativity as well as creative relationships
