Infinito Viaggiare Magris:

L'infinito viaggiare Claudio Magris, 2005 **Turismo sociale** Giuseppe Magistrali, 2008 **Textual Wanderings** Rhian Atkin, 2017-12-02 Digression is a crucial motif in literary narratives. It features as a key characteristic of fictional works from Cervantes and Sterne to Proust, Joyce and Calvino. Moving away from a linear narrative and following a path of associations reflects how we think and speak. Yet an author's inability to stick to the point has often been seen to detract from a work of literature, somehow weakening it. This wide-ranging and timely volume seeks to celebrate narrative digressions and move towards a theoretical framework for studying the meanderings of literary texts as a useful and valuable aspect of literature. Essays discussing some of the possibilities for approaching narrative digression from a theoretical perspective are complemented with focused studies of European and American authors. As a whole, the book offers a broad and varied view of textual wanderings.

Literary Multilingualism in the Borderlands Marianna Deganutti, 2023-08-24 This book focuses on literary multilingualism and specifically on the challenging condition of writing in Trieste, a key European borderland located at the intersection between the Latin, Germanic and Slav civilisations. By focusing on some of the most representative modern writers operating in the area, such as Italo Svevo, Boris Pahor, Claudio Magris and James Joyce, this work offers a wide-ranging discussion of multilingual practices deriving from the different language choices made by these writers. Along with the most common manifest strategies, such as code-switching and hybridisations, Deganutti highlights how Triestine writers found innovative latent practices to engage with multilingualism, such as writing in an analogical way or exploiting internal linguistic stratifications. Moreover, she shows how they provided answers to the several linguistic, cultural and even political challenges they were subjected to, with the result of redefining linguistic boundaries that clearly separate different tongues. This book will be of interest to graduate students, researchers and academics interested in literary multilingualism in the fields of sociolinguistics, borderland studies and comparative literature.

Laboratorio Internazionale Di Progettazione Francesco Garofalo, 2008 Translation and Objects Ma Carmen África Vidal Claramonte, 2024-08-06 *Translation and Objects* offers a new and original perspective in Translation Studies, originating from the conviction that in today's world translation is pervasive. Building on the ideas of scholars who have expanded the boundaries of the discipline, this book focuses on the analysis of objects that migrants carry with them on their journey of migration. The ideas of displacement and constant movement are key throughout these pages. Migrants live translation literally because displacement is a leitmotif for them. *Translation and Objects* analyzes migrant objects, such as shoes, stones or photographs, as translation sites that function as expressions as well as sources of emotions. These displaced emotional objects, laden with meanings and sentiments, tell many stories, saying a great deal about their owners, who almost never have a voice. This book shows how meaning is displaced through the materiality, texture, smells, sensations and forms of moving objects. Including examples of translations that have been created from a non-linguistic perspective and exploring linguistic issues whilst connecting them to other fields.

such as anthropology and sociology Vidal sets out a broad vision of translation This is critical reading for translation theory courses within Translation Studies comparative literature and cultural studies With the exception of Chapter 3 no part of this book may be reprinted or reproduced or utilised in any form or by any electronic mechanical or other means now known or hereafter invented including photocopying and recording or in any information storage or retrieval system without permission in writing from the publishers

Psychoanalysis and Architecture Cosimo Schinaia, 2018-05-08 This book explores how psychoanalysis and architecture can enhance and increase the chances of mental containment while also fostering exchange between inside and outside The way in which psychoanalysts take care of mental suffering and the way in which architects and city planners assess the environment are grounded in a shared concern with the notion of dwelling It is a matter of fact that dwelling exists in a complex context comprised of both biological need and symbolic function Psychoanalysis and architecture can work together in both thinking about and designing not only our homes but also the analyst s consulting rooms and more generally our therapy places However this is possible only if they renounce the current limited and restrictive model of this interaction and propose one more that is more in harmony with the questions and situations that clients themselves pose
